Extraordinary income			
Settlement revenues from operational grants	24,128	_	
Reversal of contra-accounts for assets	36	59	
Gain on sales of non-current assets	26	31	
Total extraordinary income	24,190	90	
Reversal of reserve fund carried over from			
		15,372	
the previous Mid-term Objective period	501	15,372	

(Ordinary expenses)

For the business year ended March 31, 2018, ordinary expenses amounted to ¥238,184 million, decreasing ¥8,762 million or 3.5% from the previous business year. The major factor of the decrease was the ¥19,119 million or 13.8% year-on-year decrease in operating expenses of which operational grants are the financial source. (Ordinary revenues)

36.619

For the business year ended March 31, 2018, ordinary revenues totaled ¥227,716 million, decreasing ¥31,202 million or 12.1% year-on-year. The major factor of the decrease was the ¥43,340 million or 24.6% decrease in revenues from operational grants. (Total income and loss for the current business year)

Total income for the current business year

In addition to the ordinary income noted above, the following items were recorded in the business year under review. There was an extraordinary loss of ¥690 million, including payments to national treasury and other losses, and a reversal of contra-accounts for assets related to the loss on disposal of non-current assets of ¥59 million, and ¥31 million in gain on sales of non-current assets. Moreover, reversal of reserve fund carried over from the previous Mid-term Objective period totaled ¥15,372 million. As a result, total income for the current business year was ¥4,304 million, decreasing ¥32,315 million or 88.2% from the previous business year.

St	atement of Cash Flows	(Unit: Millions of yen)		
		April 1, 2016 – April 1, 2 March 31, 2017 March 31,		
I.	Cash flows from operating activities			
	Payments of operating expenses	(150,814)	(134,815)	
	Payments for grant aid	(80,012)	(89,465)	
	Payments of personnel expenses	(16,390)	(16,867)	
	Proceeds from operational grants	155,450	154,316	
	Proceeds from grant aid	98,142	108,614	
	Other proceeds and payments	(987)	(5,555)	
II.	Cash flows from investing activities	(15,895)	96,273	
III.	Cash flows from financing activities	(662)	(752)	
IV.	Effect of exchange rate fluctuation on funds	(109)	(175)	
٧.	Net increase (decrease) in funds	(11,277)	111,573	
VI.		91,615	80,337	
VII.	Funds at the end of the business year	80,337	191,910	

(Cash flows from operating activities)

For the business year ended March 31, 2018, cash flows from operating activities amounted to ¥16,227 million, increasing ¥10,838 million or 201.1% year-on-year. The main contributor to the increase was the ¥10,472 million or 10.7% increase in proceeds from grant aid.

(Cash flows from investing activities)

For the business year ended March 31, 2018, cash flows from investing activities amounted to ¥96,273 million, increasing ¥112,168 million or 705.7% from the previous business year. The increase was primarily attributed to the ¥327,000 million or 43.5% decrease in payments for purchase of negotiable deposits.

(Cash flows from financing activities)

For the business year ended March 31, 2018, cash flows from financing activities amounted to a cash outflow of ¥752 million, decreasing ¥90 million or 13.6% from the previous business year. The major contributor to the decrease was the \$90 million or 17.4% increase in payments to national treasury for unnecessary property.

79,188

For the business year ended March 31, 2018, ordinary revenues decreased ¥155 million or 0.1% to ¥173,328 million. The major factor was ¥7,467 million or 4.9% year-on-year decrease in interest on loans

(Total income and loss for the current business year)

Total income for the current business year

In addition to the ordinary income noted above, there were extraordinary losses of ¥97 million as loss on transfer of benefit obligation relating to Employees' Pension Fund, and extraordinary income of ¥6 million as gain on sales of non-current assets. As a result, total income for the current business year was ¥79,188 million, increasing ¥4,825 million or 6.5% from the previous business year.

Statement of Cash Flows (Unit: Millions			it: Millions of yen)
		April 1, 2016- March 31, 2017	April 1, 2017- March 31, 2018
l.	Cash flows from operating activities	11,916	30,362
	Payments for loans	(878,084)	(1,112,261)
	Repayments of borrowings from government fund		
	for Fiscal Investment and Loan Program	(219,212)	(231,406)
	Proceeds from collection of loans	700,863	774,113
	Proceeds from borrowings from government fund		
	for Fiscal Investment and Loan Program	203,000	402,600
	Proceeds from issuance of bonds	110,389	114,429
	Proceeds from interest on loans	149,643	142,494
	Other operation proceeds and payments	(54,683)	(59,608)
II.	Cash flows from investing activities	(21,577)	(34,289)
III.	Cash flows from financing activities	130,038	45,104
IV.	Effect of exchange rate fluctuation on funds	1,084	(1,216)
٧.	Net increase (decrease) in funds	121,461	39,962
VI.	Funds at the beginning of the business year	87,531	208,993
VII.	Funds at the end of the business year	208,993	248,954

(Cash flows from operating activities)
For the business year ended March 31, 2018, cash flows from operating activities amounted to ¥30,362 million, increasing ¥18,446 million or 154.8% year-on-year. The major factor of the increase was the ¥199,600 million or 98.3%, increase in proceeds from borrowings from government fund for Fiscal Investment and Loan Program. (Cash flows from investing activities)

For the business year ended March 31, 2018, cash flows from investing activities amounted to a cash outflow of ¥34,289 million, declining ¥12,712 million or 58.9 % from the previous business year. The decrease was primarily attributed to the ¥206,822 million or 1,400.2% increase in payments into time deposits

(Cash flows from financing activities)

For the business year ended March 31, 2018, cash flows from financing activities amounted to ¥45,104 million, decreasing ¥84,934 million or 65.3% from the previous business year. The major contributor to the decrease was the ¥84,890 million or 65.3% decrease in receipt of government investment.

Statistics on Program Results

Interpreting the Statistics

The following shows statistics relating to JICA's operations in FY2017.

The methods of calculation and the range of figures are as follows.

- When categorized according to region, figures for bilateral cooperation are classified into the following six regions.
 - (1) Asia (including Central Asia and the Caucasus, excluding the Middle East);
 - (2) Pacific;
 - (3) North America and Latin America;
 - (4) Middle East (west of Iran and north of Sahara except Sudan);
 - (5) Africa (excluding the Middle East);
 - (6) Europe (including Turkey)
- 2. Technical Cooperation program results by number of participants are classified into the following five types.
 - (1) Acceptance of training participants;
 - (2) Dispatch of experts;
 - (3) Dispatch of study teams;
 - (4) Dispatch of Japan Overseas Cooperation Volunteers (JOCVs);
 - (5) Dispatch of other volunteers
- All other data in connection with JICA's operations and performance together with revisions and updates of achievements and results not appearing in this report shall be posted on JICA's website in a timely and appropriate manner.

Breakdown of Countries and Regions

% Of GNI (Excluding Disbursements for Graduate Countries)			0.23	0.20		0.23	0.20		

(Notes) 1. The following 12 countries/regions are graduate countries other than OECD member states that have received ODA: Bahamas, Barbados, Brunei Darussalam, [French Polynesia], [Hong Kong], [New Caledonia], Oman, Saint Christopher and Nevis, Saudi Arabia, Singapore, Trinidad and Tobago, and the United Arab Emirates.
2. 2017 DAC designated exchange rate: US\$1.00 = ¥112.1831 (a depreciation of ¥3.3804 compared with 2016)
3. Individual totals may not be equal to the sums of the individual parts because some numbers have been rounded off.
4. Debt relief includes waiver of ODA Loans and debt reductions of collateralized commercial obligations and sale receivables of rice, but excludes deferring of repayments.
5. In the past, grants through international organizations were treated as "contributions and subscriptions to international organizations." However, from 2006, donations for recipient countries identified at the time of contribution are treated as "Grants" for these countries.
6. Starting with 2011 results, NGO project grants have been included in grants for individual countries.
* Technical Cooperation includes administrative and development education expenses.

2 Overview of MOFA's ODA Budget (Unit: ¥ billion)

		FY2017		FY2018	
		Budget	Percentage increase	Budget	Percentage increase
Ent	tire government	552.7	0.1%	553.8	0.2%
	Within the Ministry	434.3	0.0%	434.4	0.0%
	Grants	163.1	0.1%	160.5	-1.6%
	Management Grants (General Account)	150.5	0.8%	150.5	0.0%
	Contributions and donations	51.7	2.5%	51.8	0.1%
	Aid for assistance activities	69.1	-3.5%	71.8	3.8%

3 Outline of JICA Operations

Content of Cooperation	FY2017	FY2016 (reference)
Developing Countries/Regions Targeted for Assistance*	146 countries/regions	154 countries/regions
2. Japan's total ODA (Calendar year, gross disbursement, including aid for graduate countries)	¥2,073.1 billion	¥1,830.0 billion
3. JICA's Technical Cooperation Expenses **	¥192.3 billion	¥207.7 billion
4. JICA's Finance and Investment Cooperation Projects (New Commitments) ***	¥1,888.4 billion	¥1,485.8 billion
5. JICA's Grant Projects (New G/A concluded) ****	¥115.1 billion	¥98.0 billion
6. Training Participants (New)	17,138 (persons)	17,613 (persons)
7. Experts Dispatched (New)	11,098 (persons)	10,284 (persons)
8. Members of Study Teams Dispatched (New)	10,228 (persons)	9,955 (persons)
9. JOCVs Dispatched (New)	1,171 (persons)	1,132 (persons)
10. Other Volunteers Dispatched (New)	297 (persons)	343 (persons)
11. No. of Technical Cooperation Projects (Ongoing)	526 (89 countries/regions)	549 (88 countries/regions)
12. No. of Science and Technology Research Partnership for Sustainable Development (SATREPS) (Ongoing)	67 (36 countries)	77 (38 countries)
13. No. of Finance and Investment Cooperation Projects (New Commitments) ***	59 (21 countries and 4 organizations)	57 (25 countries)
14. No. of Grant Projects (New G/A concluded)	157 (56 countries/regions)	140 (53 countries/regions)
15. No. of JICA Partnership Program (JPP) Projects (New/Ongoing)	222 (50 countries)	260 (51 countries)
16. Dispatch of Japan Disaster Relief Team (JDR), Provision of Disaster Relief Supplies	20 (15 countries/regions)	16 (16 countries/regions)
DAC Rate: US\$1=	¥112.2	¥108.8

4 Geographical Distribution of JICA Operations

Note: The figures within Japan's ODA (2017) are provisional figures for the calendar year prepared from materials from the Ministry of Foreign Affairs of Japan. Cumulative total persons are cumulative new personnel (includes data for FY2017).

Figures do not include those for worldwide projects across countries and regions.

* F and IC: Finance and Investment Cooperation (ODA Loans and Private-Sector Investment Finance projects)

** Technical Cooperation expenses include expenses for Technical Assistance, managed under the Finance and Investment Account budget, SATREPS, JPP Projects, Disaster Relief etc., but exclude administrative costs.

*** Amount of concluded Grant Agreements (G/A). For projects running over several fiscal years, the maximum amount allowed for each fiscal year is counted for that fiscal year. Increase in maximum amount committed according to amendment of G/A is counted for the year the amendment was made.

Note: Figures do not include those for worldwide projects across countries and regions.

* The number of countries in which there are JICA projects except the Development Assistance Committee (DAC) member countries.

** Technical Cooperation expenses include expenses for Technical Assistance, managed under the Finance and Investment Account budget, SATREPS, JPP Projects, Disaster Relief etc., but exclude administrative costs.

*** Total of new commitments of ODA Loans and Private-Sector Investment Finance projects.

**** Amount of concluded Grant Agreements (G/A). For projects running over several fiscal years, the maximum amount allowed for each fiscal year is counted for that fiscal year. Increase in maximum amount committed according to amendment of G/A is counted for the year the amendment was made.

(Unit: ¥100 million, %)

Note: In some cases numbers do not correspond to the sum total figures because of rounding. *Amount of concluded Grant Agreements (G/A). For projects running over several fiscal years, the maximum amount allowed for each fiscal year is counted for that fiscal year, including the maximum amount allowed for the fiscal year sprior to fiscal 2016 of G/A projects concluded in fiscal 2017. Increase in maximum amount committed according to amendment of G/A concluded prior to fiscal 2016 is counted for the year the amendment was made.

Consultin	g Services	For consulting services, those for main compon		be minimal (0.01%) and	I the repayment, grace periods an	d conditions for pro	curement will be	the same as
Options for P Japanese (Program Type ODA Loans	In case of co-financing,	it is possible to apply	the same repayment t	erms as co-financer's lending whi	le maintaining the o	oncessionality of	Yen loans.

- For Low-Income LDCs, the term and condition of 0.01% interest rate and 40-year repayment period including 10-year grace period are applied, irrespective of sectors and fields. Three-year transition period will be granted to recipient countries that will move from the category of Low-Income LDCs, and, during the period, the terms and conditions for Low-Income LDCs will be applied to the projects of the countries.
- Special Terms for Economic Partnership (STEP) is extended to the projects for which Japanese technologies and know-how are substantially utilized, based on the recipient countries' request to utilize and transfer excellent technologies of Japan. Countries (except LDCs), which are eligible for tied aid under Arrangement on Officially Supported Export Credits Preferential Terms for High Specification will be applicable to projects promoting quality infrastructure. The applicability of the terms will be decided on a case-by-case basis.
- Preferential Terms are applied to the following sectors and fields
 - (i) Issues on Global Environmental and Climate Change
 - Health and Medical Care and Services
 - (iii) Disaster Prevention and Reduction
 - (iv) Human Resource Development
- The base rate of Floating Loan is the value of the 6-month Japanese Yen LIBOR, and the fixed spread remains constant over the life of the loan. If the base rate plus fixed spread is lower than 0.1%, the interest shall be 0.1%.
- Irrespective of the income category, the term and condition of 0.01% interest rate and 40-year repayment period including 10-year grace period are applied to projects assisting recoveries from disasters, including Stand-by Emergency Credit for Urgent Recovery (SECURE). For Stand-by Emergency Credit for Urgent Recovery (SECURE) and the term and condition of 20-year repayment period including 6-year grace period, or 15-year repayment period including 5-year grace period are also available, in order to apply Currency Conversion
- voption.

 ******** For Contingent Credit Enhancement Facility for PPP Infrastructure Development (CCEF-PPP), only floating rate will be applied irrespective of income category. The terms on conditions are individually set within the following range of interest rate as well as repayment period (In the case of short term financial support, however, the repayment period is 10 years). - Interest rate: ¥LIBOR + 30~50bp
 - Repayment period: maximum 40-year(maximum 30-year drawdown period plus 10 year)

- For countries complying with ongoing IMF-supported programs or receiving grants from IDA, it is possible to modify the terms and conditions of the ODA Loans so as to meet the IMF's
- For General terms and Preferential terms, fixed interest rate for all countries (except Low-Income LDCs) will be revised on a regular basis so that its concessionality will be equal to that of
- For Upper-Middle-Income Countries, Floating Term will be applied in principle, although Fixed Term could be applied

Sectors and Fields Eligible for Preferential Terms

- · Global Environmental and Climate Change
- · Human Resource Development
- · Disaster Prevention and Reduction
- · Health and Medical Care and Services

[Note] 1. To promote the strategic use of ODA loans for priory issues, assistance for which makes use of Japan's outstanding technology and know-how, JICA reviewed sectors to which preferential terms of assistance are applied in accordance with an announcement made on an improvement in policies to encourage the strategic use of ODA Loans by the Ministry of Foreign Affairs on April 15, 2013.

2. In cases where a part of the project is eligible for preferential terms, the terms can be applied to that part.

2 Enhancement Use of Assistance for Upper-Middle-Income Countries and Uppermost-Middle-Income Countries

JICA promotes its use of ODA Loans in upper-middle-income countries and uppermost-middle-income countries, primarily in fields where Japan's knowledge and technology can be put to good use.

For upper-middle-income countries, besides the current six fields of application (environment, human resource development, measures to reduce disparities, disaster prevention and recovery measures, regional infrastructure and agriculture), JICA will provide ODA Loans for other areas that have strategic significance for Japan, such as making maximum use of Japan's knowledge and technology.

Uppermost-middle-income countries will be eligible for ODA Loans if projects are considered to have strategic significance for Japan until they graduate from being eligible for World Bank assistance (normally about five years).

Special Term for Economic Partnership (STEP)

Overview

Special Terms for Economic Partnership (STEP) was introduced in July 2002, with a view to raising the visibility of Japanese ODA among citizens in both recipient countries and Japan through best use of advanced technologies and know-how of Japanese firms.

STEP Recipient Countries

Countries eligible for Japanese ODA loans and tied aid under the OECD rules.

STEP-Eligible Projects

(1) Projects eligible for STEP are those listed in following sectors and fields; (2) and at the same time, for which Japanese technologies and equipment are substantially utilized.

Sectors and Fields

- · Bridges and Tunnels
- Trunk roads/Dams (limited to projects that substantially utilize Japanese anti-earthquake technology, ground treatment technology and rapid construction technology)
- · Ports
- · Airports
- · Urban mass transit system
- · Oil/Gas transmission and storage facilities
- · Urban flood control projects
- · Communications/Broadcasting/Public information system
- · Power stations/Power transmission and distribution lines
- Environmental Projects (limited to projects that substantially utilize Japan's air-pollution prevention technology, water-pollution prevention technology, waste treatment and recycling technology and waste heat recycling and utilization technology)
- · Medical equipment
- · Disaster-prevention system/equipment

Even if a project does not fall into the sectors and fields listed above, application of STEP to the project could be positively considered as long as the project substantially utilizes Japanese technologies and/or equipment.

Interest Rates and Repayment Period

Interest rates and repayment periods are set so as to enable the extension of tied aid under OECD rules.

Procurement Conditions

Primary contracts are tied to Japanese firms, while subcontracts are generally untied. Joint ventures with recipient countries are accepted for primary contracts, on condition that the Japanese firm is the leading partner.

Coverage Ratio

STEP loans may be used to finance up to 100% of the total project cost.

Country of Origin Rule

Not less than thirty percent (30%) of the total price of contract(s) (excluding consulting services) financed by a STEP loan shall be accounted for by either (i) goods from Japan and services provided by a Japanese company(ies), or (ii) goods from Japan only, depending on the nature of the project.

	Category	Examples
(a)	Projects in which advanced technologies and/or know-how of Japanese companies are identified in services (e.g. construction methods, etc).	Tunnels, ports, concrete bridges, trunk roads, dams, sewerage systems, urban underground headrace tunnels, public information systems, hydroelectric power, and geothermal power, etc.
(b)	Projects, which consists mainly of the installation of goods or plants and in which Japanese technologies can be identified in such goods or plants.	Communications/broadcasting facilities, wind/solar/thermal power generation, oil/gas transmission and storage facilities, waste treatment sites, waste incineration plants, steel bridges, urban mass transit systems, urban flood control projects, power transmission and distribution line, etc.

Procurement Audits

The procurement process is audited by a third party after bidding to ensure fairness, utilizing loan funds or JICA research expenses.

Note: Please refer to page 27 for the classification of principal country income levels.

13-2 Tying Status of ODA Loans (Commitment Basis) (Unit: %) FY2014*3 FY2015 FY2016 FY2017*5 General Untied 78.1 85.2 58.2*4 90.9 80.1 Partially Untied*1 4.7*2 3.7 1.7 0.0 2.6*6 Bilateral Tied 0.0 0.0 0.0 0.0 1.1 17.3*7 16.2 11.1 40.1 9.1

General Untied: Procurement conditions stipulating that associated goods and services may be procured in substantially all countries.

Partially Untied: Procurement conditions stipulating that Japan and all countries on the DAC list of ODA recipients (Part 1 and Part 2) are eligible source countries.

Bilateral Tied: Procurement conditions stipulating that only Japan and borrowing countries are eligible source countries.

Tied: Procurement conditions stipulating that only Japan is a procurement-eligible source country

- *1 International competitive bidding by participating countries and member countries as stipulated in the Agreement for the establishment of the African Development Bank (AfDB) and by member countries as stipulated in the Agreement for the establishment of the Inter-American Development Bank (IDB).
- 12 Includes the partially untied component of the project whose L/A amount was increased (compound project).
 13 "Loan for International Development Association Seventeenth Replenishment" for IDA does not include procurement and is therefore excluded.
- *4 Includes increase in amount committed according to amendment of L/A.
 *5 "Loan for the International Development Association 18 Replenishment" for IDA, "The African Development Fund Fourteenth Replenishment" for ADF, "Loan for MENA Financing Initiative" for IBRD do not include procurement and are therefore excluded.

 *6 Regarding "Energy Management and Efficiency Programme" in Jamaica, IDB member countries and countries designated by the EU are eligible source countries.

 *7 Includes "Project for the Construction of Training Institute for Mumbai-Ahmedabad High Speed Rail" in India.

Nationalities of Contractors (Including Procurement in Local Currency)						
	FY2013	FY2014	FY2015	FY2016	FY2017

Significant Accounting Policies

Revenue recognition method of operational grants

Revenue from operational grants is recognized based on the level of operational achievement.

The revenue recognition method based on term is applied for administrative operations except the operations which have been specified as having a direct correlation between the operational achievement and operational grants.

The revenue from disaster relief operations, which are relief operations for unexpected disasters during the period, is recognized as the related expenses are incurred, since it is difficult to estimate the budget and terms, and specify a correlation between the operational achievement and operational grants.

Depreciation method

(1) Tangible assets (except for lease assets)

Straight-line method

The useful lives of major assets are as follows:

Buildings: 1–50 years
Structures: 1–42 years
Machinery and equipment: 1–17 years
Vehicles: 1–6 years
Tools, furniture, and fixtures: 1–15 years

The estimated depreciation costs for specific depreciable assets (Accounting Standard for Incorporated Administrative Agency No. 87) and

specific removal costs, etc., associated with asset retirement obligations (Accounting Standard for Incorporated Administrative Agency No. 91) are indirectly deducted from capital surplus and reported as accumulated depreciation not included in expenses.

(2) Intangible assets (except for lease assets)

Straight-line method

Software used by JICA is depreciated over its useful life (5 years).

(3) Lease assets

Lease assets are depreciated by the straight-line method over the lease term. Depreciation for lease assets is calculated with zero residual value being assigned to the asset.

3 Provision for bonuses

A provision for bonuses is not accrued since the financial source is secured by operational grants.

The estimated bonus payments not included in the provision in the statement of administrative service operation cost is reported as a current business year estimate of the provision for bonuses, calculated according to the Accounting Standard for Incorporated Administrative Agency No. 88.

4 Provision for retirement benefits

A provision for retirement benefits is not accrued for retirement benefits since the financial source is secured by operational grants.

A provision for retirement benefits is not provided for pension benefits from the defined benefit corporate pension plan since the financial source for defined benefit corporate pension plan insurance fees and reserve shortfall is secured by operational grants.

The estimated increase in retirement benefits not included in the provision in the statement of administrative service operation cost is reported as the current business year increase in the provision for retirement benefits regarding retirement benefits and employees' pension fund, calculated according to the Accounting Standard for Incorporated Administrative Agency No. 38.

Basis and standard for the accrual of allowance and loss contingencies

Allowance for loan losses

To provide for loan losses, JICA records the estimated amount of default as an allowance, taking into account the transition rate to delinquent loans for the ordinary loans. For doubtful loans, collectability is individually taken into consideration and the estimated amount of default is recorded as an allowance.

5 Standard and method for the valuation of inventories Stored goods

Stored goods valuation is based on the lower of cost or market using the first-in, first-out (FIFO) method.

7 Translation standard for foreign currency-denominated assets and liabilities into yen

Foreign currency monetary claims and liabilities are translated into Japanese yen at the spot exchange rate at the balance sheet date. Exchange differences are recognized as profit or loss.

8 Method for computing opportunity cost in the Statement of Administrative Service Operation Cost

Interest rate used to compute opportunity cost of government investment:

0.045% with reference to the yield of 10-year fixed-rate Japanese government bonds at the end of March 2018.

9 Accounting treatment for consumption taxes

Consumption taxes and local consumption taxes are included in transaction amounts.

10 Changes in presentation of the Statement of Income

Certain accounts in the statement of income have been reclassified in the business year 2017. To reflect these changes in presentation, the statement of income for the business year 2016 was reclassified as follows:

				(Unit: Yen
Before the change	Before the change			Difference
Ordinary expenses		Ordinary expenses		
Operating expenses		Operating expenses		
Expenses for technical cooperation projects	80,680,879,609	Expenses for priority sectors and regions	92,482,794,996

Notes to the financial statements

(Balance Sheet)

Estimated retirement benefits to be provided from the operational grants

¥15,811,396,073

Estimated bonus to be provided from the operational grants

¥1,129,848,190

3 Impairment loss on non-current assets

Non-current assets indicating impairment loss

(1) Outline of usage, type, location, book value of non-current assets that indicated an impairment loss

				(Unit: Yen)
Name of asset	Usage	Location	Type	Book value
Soubudai Jutaku	Employee housing	Zama city, Kanagawa prefecture	Building	476,373,498

(2) Background and reason for the indication of impairment loss

The asset presented an impairment indicator since the occupancy ratio was less than 50% at the end of business year 2017. However, impairment loss has not been recognized because the building continues to be utilized for employee housing.

Donated funds for grant aid

Grant aid is received in the form of donated funds from the government of Japan. JICA administers this grant aid based on grant agreements with the government of the recipient country. At the end of business year 2017, the outstanding balance of unexecuted grant agreements stood at \$288,852,416,647.

(Statement of Cash Flows)

The funds shown in the statement of cash flows consist of cash, deposit accounts, and checking accounts.

Breakdown of balance sheet items and ending balance of funds

(as of March 31, 2018)

Cash and deposits	¥198,210,198,306
Time deposits	¥(6,300,000,000)
Ending balance of funds	¥191.910.198.306

Description of significant non-cash transactions

Assets acquired under finance leases

Tools, furniture, and fixtures ¥127,338,623

Description of payments to National Treasury

"Payments to National Treasury" presented in "Cash flows from operating activities"

Reserve fund generated during the Third Mid-term Objective period has been paid to the National Treasury in accordance with Paragraph 3, Article 31 (3) of the Act of the Incorporated Administrative Agency - Japan International Cooperation Agency.

(Statement of Administrative Service Operation Cost)

Number of public officers temporarily transferred to JICA and accounted for as opportunity cost

Of the estimated increase in retirement benefits not included in the provision, ¥18,279,915 was recognized as the current-business-year increase in provision for retirement benefits for 32 public officers temporarily transferred to JICA according to JICA's internal rules.

(Financial Instruments)

Status of financial instruments

The General Account's fund management is limited to short-term deposits and public and corporate bonds while fund-raising consists mainly of operational grants approved by the competent minister. The General Account does not borrow from the government fund for Fiscal Investment and Loan Program (FILP), nor does it borrow funds from financial institutions or issue FILP Agency Bonds.

Tair value of financial instruments

Balance sheet amount, fair value, and difference at the balance sheet date are as follows:

			(Unit: Yen)
	Balance sheet amount	Fair value	Difference
(1) Cash and deposits	198,210,198,306	198,210,198,306	0
(2) Accounts payable	(14,072,302,217)	(14,072,302,217)	0

(Note) Liabilities are shown in parentheses ().

(Note 1) Calculation method for fair value of financial instruments and matters concerning accounts payable

[1] Cash and deposits

Cash and deposits are valued at book value because fair value approximates book value since these items are settled in a short period of time.

[2] Accounts payable

Accounts payable are valued at book value because fair value approximates book value since these items are settled in a short period of time.

(Retirement benefits)

Overview of retirement benefit plans

To provide retirement benefits for employees, JICA has a defined benefit pension plan comprised of a defined benefit corporate pension plan and a lump-sum severance indemnity plan, and a defined contribution plan comprised of a defined contribution pension plan.

On February 16, 2018, JICA transferred the minimum actuarial liability of the substitutional portion of the Employees' Pension Fund to the National Treasury.

2 Defined benefit pension plan

(1) The changes in the retirement benefit obligation are as follows:

	(Unit: Yen)
Retirement benefit obligation at the beginning of the business year	30,911,805,848
Current service cost	1,070,990,844
Interest cost	140,063,526
Actuarial difference	(416,646,379)
Retirement benefit paid	(1,018,618,533)
Past service cost	0
Contribution by employees	61,587,581
Decrease associated with the transfer of benefit obligation relating to	
the Employees' Pension Fund	(6,673,026,984)
Retirement benefit obligation at the end of the business year	24,076,155,903

(2) The changes in the plan assets are as follows:

	(Unit: Yen)
Plan assets at the beginning of the business year	14,763,005,701
Expected return on plan assets	0
Actuarial difference	317,719,660
Contribution by the company	415,559,808
Retirement benefit paid	(331,278,875)
Contribution by the employee	61,587,581
Decrease associated with the transfer of benefit obligation relating to	
the Employees' Pension Fund	(6,961,834,045)
Plan assets at the end of the business year	8,264,759,830

(3) Reconciliation of the projected benefit obligations and plan assets and provision for retirement benefits and prepaid pension expenses in the balance sheets

	(UIIIL Yell)
Funded retirement benefit obligation	10,339,186,129
Plan assets	(8,264,759,830)
Unfunded benefit obligations of funded pension plan	2,074,426,299
Unfunded benefit obligations of unfunded pension plan	13,736,969,774
Subtotal	15,811,396,073
Unrecognized actuarial differences	0
Unrecognized past service cost	0
Net amount of assets and liabilities in the balance sheets	0
Provision for retirement benefits	0
Prepaid pension expenses	0
Net amount of assets and liabilities in the balance sheets	0

(Note) A provision for retirement benefits is not accrued for the difference between retirement benefit obligations and plan assets and net amount of assets and liabilities in the balance sheet, ¥15,811,396,073, since the financial source is secured by operational grants.

(4) Components of retirement benefit expenses

	(Unit: Yen)
Current service cost	1,070,990,844
Interest cost	140,063,526
Expected return on plans assets	0
Realized actuarial differences	(734,366,039)
Amortization of past service cost	0
Extraordinary additional retirement payments	0
Total	476,688,331
Loss on transfer of benefit obligation relating to Employees' Pension	
Fund (Note)	288,807,061

(Note) Loss on transfer of benefit obligation relating to the Employees' Pension Fund is presented in the statement of administrative service operation cost as a deduction amount.

(5) Major components of plan assets

Percentages of components to the total are as follows:

Bonds	38%
Stocks	35%
General account of life insurance company	19%
Others	8%
Total	100%

(6) Method of determining the long-term expected rate of return on plan assets

The long-term expected rate of return on plan assets is determined based on components of plan assets, the actual historical returns, and market condition, etc.

(7) Assumptions used

Principal assumptions used in actuarial calculations at the end of the business year

Discount rate	Defined benefit corporate pension plan	0.23%
	Retirement benefits	0.74%
Long-term expected rate of return on plan assets		

Defined contribution plan

The amount of contribution required to be made to the defined contribution plan is ¥46,387,450.

(Lease transactions)

Future minimum lease payments related to operating lease transactions

Future minimum lease payments due within one year of the balance sheet date \$45,058,224 Future minimum lease payments corresponding to periods more than one year from the balance sheet date \$54,194,406

 The impact of the finance lease transactions on the current business year's profits and losses was ¥22,207,448. Total income for the current business year after the deduction of this amount was ¥4,326,047,881.

(Asset retirement obligations)

JICA has a building lease agreement for its head office building, and has

obligations to restore the building to its original state at the termination of the lease period. Therefore, these asset retirement obligations have been recorded. The estimate for the asset retirement obligations assumes a five-year lease period for the projected period of use and a discount rate of 0.529%.

The balance of the asset retirement obligations at the end of the current business year was ¥276,125,850.

(Payments to the National Treasury, etc., for unnecessary property) Funds retained by JICA

 Summary of the type and book value of the assets that were paid to the National Treasury as unnecessary property

Type of assets	Book value
Cash and deposits	¥610,718,937

2. Reason for which the property became unnecessary

When the Third Mid-term Objective period closed, the Company examined the reserve fund to determine amounts to pay to the National Treasury in accordance with Article 31 of the Act of the Incorporated Administrative Agency – Japan International Cooperation Agency. The Company identified certain expenses without cash outlay that offset a portion of the reserve, creating a cash surplus. This surplus was paid to the National Treasury as unnecessary property.

- Method of payment to the National Treasury: Transfer by cash pursuant to Paragraph 1, of Article 46-2 of the Act on General Rules for Incorporated Administrative Agency.
- Amount and date of payment to the National Treasury: ¥610,718,937, November 27, 2017
- 5. Capital reduction: Not applicable

(Significant contractual liabilities)

Contractual liabilities JICA is obligated to pay during the next business year and thereafter are ¥8,361,722,464.

(Significant subsequent events)

Not applicable

The financial statements have been audited by an accounting auditor as prescribed in Article 39 of the Act on General Rules for Incorporated Administrative Agencies.

Significant Accounting Policies

Depreciation method

(1) Tangible assets (except for lease assets)

Straight-line method

The useful lives of major assets are as follows:

Buildings: 2–50 years

Structures: 2–46 years

Machinery and equipment: 2–17 years

Vehicles: 2– 6 years

Tools, furniture and fixtures: 2–15 years

(2) Intangible assets (except for lease assets)

Straight-line method

Software used by JICA is depreciated over its useful life (5 years).

(3) Lease assets

Lease assets are depreciated by the straight-line method over the lease term. Depreciation for lease assets is calculated with zero residual value being assigned to the asset.

2 Provision for bonuses

The provision for bonuses is calculated and provided for based on estimated amounts of future payments attributable to the services that have been rendered by officers and employees applicable to the current business year.

Provision for retirement benefits

The provision for retirement benefits is calculated and provided for based on estimated amounts of future payments attributable to the retirement of employees, and is accrued in line with the retirement benefit obligations and estimated plan assets applicable to the business year ended March 31, 2018. In calculating the retirement benefit obligations, the estimated amount of retirement benefit payments is attributed to the period based on the straight-line basis. The profit and loss appropriation method for actuarial differences and past service costs are presented as follows:

Actuarial differences are recognized as a lump-sum gain or loss in the business year in which they occur.

Past service costs are recognized as a lump-sum gain or loss in the business year in which they occur.

The estimated increase in retirement benefits not included in the provision in the statement of administrative service operation cost is reported as the current business year increase in the provision for retirement benefits regarding retirement benefits, calculated according to the Accounting Standard for Incorporated Administrative Agency No. 38.

4 Basis and standard for the accrual of allowance and loss contingencies

(1) Allowance for loan losses

The allowance for claims on debtors who are legally bankrupt ("Bankrupt borrowers") or substantially bankrupt ("Substantially bankrupt borrowers") is provided based on the outstanding balance of loan claims after the deductions of the amount expected to be collected through the disposal of collateral and execution of guarantees, or the same amount is written off directly. The allowance for claims on debtors who are not legally bankrupt, but are likely to become bankrupt ("Potentially bankrupt borrowers") is provided based on an overall assessment of the solvency of the debtors after the deductions of the amount expected to be collected through the disposal of collateral and the execution of guarantees, or the same amount is written off directly. There were no write-offs from the above-mentioned outstanding balance of loan claims for the business year 2017.

The allowance for claims on debtors other than Bankrupt borrowers, Substantially bankrupt borrowers, and Potentially bankrupt borrowers is provided primarily based on the default rate, which is calculated based on the actual defaults during a certain period in the past. The allowance for possible losses on specific overseas loans is provided based on the expected loss amount taking into consideration the political and economic situation

of these countries.

All claims are assessed initially by the operational departments (including regional departments) based on internal rules for self-assessment of asset quality. Internal audit department, which is independent from the operational departments, reviews these self-assessments, and an allowance is provided based on the results of the assessments.

(2) Provision for contingent losses

Provision for contingent losses is provided to prepare for the occurrence of contingent losses for a portion of the undisbursed balance of loan commitments, which JICA is absolutely obligated to extend. The amount of the provision is estimated based on the possibility of losses in the future.

Standard and method for the valuation of securities

(1) Held-to-maturity securities

Held-to-maturity securities are carried at amortized cost (straight-line method).

(2) Shares of affiliated companies

Shares of affiliated companies are stated at cost, determined using the moving-average method.

However, when the amount corresponding to the equity holding has fallen below the cost at acquisition, the amount corresponding to the equity holding is used.

(3) Other investment securities

- [1] Securities whose fair value can be readily determined Such investment securities are stated at fair value.
- [2] Securities whose fair value cannot be readily determined Such Investment securities are carried at cost based on the moving average method.

Investments in limited partnerships and other similar partnerships, which are regarded as securities under Article 2, Clause 2 of the Japanese Financial Instruments and Exchange Law, Act No. 25 of 1948, are recognized at an amount equivalent to JICA's percentage share of the net assets of such partnerships, based upon the most recent financial statements available depending on the report date stipulated in the partnership agreement.

(4) Securities held as trust assets in money-held-in trust account The securities are valued in the same way as (3) above.

6 Standard and method for the valuation of derivative transactions

All derivative financial instruments are carried at fair value.

Method for amortization of discount on bonds payable

Discount on bonds payable is amortized over the duration of the bonds.

8 Translation standard for foreign currency-denominated assets and liabilities into yen

Foreign currency money claims and liabilities are translated into Japanese yen mainly at the spot exchange rate at the balance sheet date. Exchange differences are recognized as profit or loss.

9 Method for computing opportunity cost in the statement of administrative service operation cost

Interest rate used to compute opportunity cost concerning government investment:

0.045% with reference to the yield of 10-year fixed-rate Japanese government bonds at the end of March 2018.

10 Method of hedge accounting

(1) Method of hedge accounting

Interest rate swaps are accounted for using the deferral hedge accounting

method or the exceptional accrual method. Currency swaps are accounted for by the assignment method. As for interest rate and currency swaps, the interest rate part is accounted for using the exceptional accrual method and the currency part is accounted for by the assignment method.

(2) Hedging instruments and hedged items

- [1] Hedging instruments...Interest rate swaps Hedged items...Loans and foreign currency bonds
- [2] Hedging instruments...Currency swaps Hedged items...Foreign currency bonds
- [3] Hedging instruments...Interest rate and currency swaps Hedged items...Foreign currency bonds

(3) Hedging policy

JICA enters into interest rate swaps, currency swaps, or interest rate and currency swaps for the purpose of hedging interest rate or currency fluctuation risks.

(4) Method of evaluation of hedge effectiveness

Hedges that offset market fluctuations of loans are assessed based on discrepancies with regard to maturity and notional principal and others between hedged loans and hedging instruments.

As for interest rate swaps that satisfy the requirements of the exceptional accrual method, currency swaps that satisfy the requirements of the assignment method, and interest rate and currency swaps that satisfy the requirements of the exceptional accrual method and the assignment method, JICA is not required to periodically evaluate hedge effectiveness.

11 Accounting treatment for consumption taxes

Consumption taxes and local consumption taxes are included in transaction amounts.

Notes to the financial statements

(Balance Sheet)

Joint obligations

JICA is jointly liable for obligations arising from the following bonds issued by the former Japan Bank for International Cooperation which was succeeded by the Japan Bank for International Cooperation:

Fiscal Investment and Loan Program (FILP) Agency Bonds ¥100,000,000,000

2 Undisbursed balance of loan commitments

Most of JICA's loans are long term. Ordinarily, when receiving a request for disbursement of a loan from a borrower, corresponding to the intended use of funds as stipulated by the loan agreement, and upon confirming the fulfillment of conditions prescribed under the loan agreement, JICA promises to loan a certain amount of funds within a certain range of the amount required by the borrower, with an outstanding balance within the limit of loan commitments. The undisbursed balance of loan commitments as of March 31, 2018 was ¥6,851,729,728,648.

(Statement of Income)

Gain (loss) on valuation of investment securities and gain (loss) on valuation of shares of affiliated companies

Gain (loss) on valuation of investment securities and gain (loss) on valuation of shares of affiliated companies include gain and loss resulting from valuations, sales and liquidation of these securities.

Recoveries of written-off claims

Recoveries of written-off claims include the amount recovered in excess of book value of the loans transferred to JICA on October 1, 2008, that are associated with the Overseas Economic Cooperation Account of the former Japan Bank for International Cooperation.

(Statement of Cash Flows)

The funds shown in the statement of cash flows are deposit accounts and checking accounts.

Breakdown of balance sheet items and ending balance of funds

(as of March 31, 2018)

 Cash and deposits
 \$\frac{255,638,891,695}{695}\$

 Time deposits
 \$\frac{4(6,684,678,000)}{695}\$

 Ending balance of funds
 \$\frac{248,954,213,695}{695}\$

Description of significant non-cash transactions

Assets acquired under finance leases

Tools, furniture and fixtures ¥453,668,523

(Statement of Administrative Service Operation Cost)

Number of public officers temporarily transferred to JICA and accounted for as opportunity cost

Of the estimated increase in retirement benefits not included in the provision, ¥4,859,214 was recognized as the current-business-year increase of provision for retirement benefits for 32 public officers temporarily transferred to JICA according to JICA's internal rules.

(Financial instruments)

Status of financial instruments

(1) Policy regarding financial instruments

The Finance and Investment Account undertakes financial cooperation operations by providing debt and equity financing. In undertaking these operations, it raises funds by borrowing from the Japanese Government under the FILP, borrowing from financial institutions, issuing bonds, and receiving capital investment from the Japanese Government. From the perspective of asset-liability management (ALM), derivative transactions are entered into for mitigating the adverse impact caused by interest rate and foreign exchange fluctuations.

(2) Details of financial instruments and related risks

The financial assets held in the Finance and Investment Account are loans mainly to developing regions, and are exposed to credit risk attributed to defaults by its borrowers and interest rate risk. Securities, investment securities, and shares of affiliated companies are held for policy-oriented purposes, and are exposed to credit risk of issuers, interest rate risk, and market price volatility risk.

Borrowings and bonds are exposed to liquidity risk as their payments or repayments cannot be duly serviced in such a situation where the account is unable to have access to markets for certain reasons.

In addition to the above, foreign currency claims and liabilities are exposed to foreign exchange fluctuation risk.

(3) Risk management system for financial instruments

[1] Credit risk management

The Finance and Investment Account has established and operates a system for credit management. This system encompasses credit appraisal, credit limit setting, credit information monitoring, internal rating, guarantee and collateral setting, problem loan management, etc., in accordance with integrated risk management rules and various credit risk-monitoring rules. This credit management is carried out by the operational departments (including region department), in addition to the Credit Risk Analysis and Environmental Review Department and General Affairs Department. Additionally, the Risk Management Committee of the Finance and Investment Account and Board Meeting convene on a regular basis for the purpose of deliberating or reporting. Moreover, the Office of Audit monitors the status of credit management.

The credit risks of issuers of investment securities and shares of affiliated companies are monitored by the Private Sector Partnership and Finance Department, which regularly confirms their credit information, etc.

Counterparty risk in derivative transactions is monitored by regularly confirming the exposure and credit standing of counterparties and by securing collateral as necessary.

[2] Market risk management

(i) Interest rate risk management

Interest rates are determined in accordance with the methods prescribed by laws or statements of operational procedures. Interest rate swap transactions are conducted to hedge against the risk of interest rate fluctuations in light of their possible adverse impact.

(ii) Foreign exchange risk management

Foreign currency claims and liabilities are exposed to foreign exchange fluctuation risk; as such, foreign currency claims are funded by foreign currency liabilities, and currency swaps and other approaches are employed to avert or reduce foreign exchange risk.

(iii) Price volatility risk management

Stocks and other securities that are held for policy-oriented purposes are monitored for changes in value affected by the market environment or financial condition of the companies, exchange rates, and other factors.

This information is reported on a regular basis to the Risk Management Committee of the Finance and Investment Account and Board Meeting.

[3] Liquidity risk management related to fund raising

The Finance and Investment Account prepares a funding plan and executes fund raising based on the government-affiliated agencies' budgets, as resolved by the National Diet of Japan.

[4] Derivative transaction management

Pursuant to rules concerning swaps, derivative transactions are implemented and managed by separating the sections related to execution of transactions, assessment of hedge effectiveness, and logistics management based on a mechanism with an established internal system of checks and balances.

Fair value of financial instruments

Balance sheet amount, fair value, and difference at the balance sheet date are as follows:

(Unit: Yen)

	Balance sheet amount	Fair value	Difference
(-) (raii vaiue	Difference
(1) Loans	12,005,003,608,497		
Allowance for loan losses	(171,804,355,614)		
	11,833,199,252,883	12,326,420,704,963	493,221,452,080
(2) Investment securities			
Other investment securities	1,579,104,002	1,579,104,002	0
(3) Claims probable in bankruptcy, claims probable in rehabilitation, and other	87,062,884,239		
Allowance for loan losses	(75,454,149,239)		
	11,608,735,000	11,608,735,000	0
(4) Borrowings from government fund for FILP (including borrowings due within one year)	[1,911,513,136,000]	[1,994,372,272,939]	[82,859,136,939]
(5) Bonds (including bonds due within one year)	[703,132,300,000]	[756,198,868,887]	[53,066,568,887]
(6) Derivative transactions			
Derivative transactions not qualifying for hedge accounting	30,561,550	30,561,550	0
Derivative transactions qualifying for hedge accounting	[14,816,867,977]	[14,816,867,977]	0
	[14,786,306,427]	[14,786,306,427]	0

^{*} Liabilities are shown in brackets [].

(Note 1) Method for calculating fair values of financial instruments [1] Loans

The fair values of loans with floating interest rates are calculated at their book values, as policy interest rates (bank rates) are immediately reflected in their floating interest rates, and therefore, fair value approximates book value. On the other hand, fair values of loans with fixed interest rates are calculated by discounting the total amount of the principal and interest using a rate that combines a risk-free rate with the respective borrowers' credit risk.

[2] Investment securities

The fair value of other investment securities is based on quoted market prices.

[3] Claims probable in bankruptcy, claims probable in rehabilitation, and other

Regarding claims probable in bankruptcy, claims probable in rehabilitation, and other, the estimated uncollectible amount is calculated based on the expected recoverable amount through collateral and guarantees. Therefore, fair value approximates the balance sheet amount, less the current estimated uncollectible amount, and hence is calculated accordingly.

[4] Borrowings from government fund for FILP (including borrowings due within one year)

The fair value of borrowings from government fund for FILP (including borrowings due within one year) is calculated by discounting the total amount of principal and interest using interest rates expected to be applied to new borrowings for the same total amount.

[5] Bonds (including bonds due within one year)

The fair value of bonds (including bonds due within one year) is determined using market observable prices if available. For bonds without market observable prices, the fair values are calculated by discounting contractual cash flows at the risk free rate. As for hedged bonds for which the exceptional accrual method and assignment method are applied, the fair value of such interest rate swaps and currency swaps is applied.

[6] Derivative transactions

Derivative transactions are interest rate-related transactions (interest rate swaps), and fair values are based on discounted present values. Interest rate swaps for which the exceptional accrual method is applied and currency swaps for which the assignment method is applied are accounted for together with the corresponding bond. The fair value of these hedging instruments is included in the fair value of the underlying bonds.

(Note 2) The following are financial instruments whose fair values are deemed to be extremely difficult to determine. They are not included in the fair value information of financial instruments.

	(UIIIL TEII)
	Balance sheet amount
Investment securities *1	3,122,310,281
Shares of affiliated companies *1	43,545,746,439
Money held in trust *2	32,551,007,158
Undisbursed balance of loan commitments *3	0

^{*1} These financial instruments have no market prices, and the calculation of their fair values is deemed to be impractical.

(Money held in trust)

Money held in trust for the purpose of investment Not applicable.

2 Money held in trust for the purpose of investment and heldto-maturity

Not applicable.

3 Other (other than for the purpose of investment and held-tomaturity)

(Unit: Yen)

	Balance sheet amount	Acquisition cost	Difference	The amount by which the balance sheet amount exceeds the acquisition cost	The amount by which the balance sheet amount does not exceed the acquisition cost
Money held in trust for others	32,551,007,158	33,797,336,360	1,246,329,202	0	1,246,329,202

(Note) "The amount by which the balance sheet amount exceeds the acquisition cost" and "The amount by which the balance sheet amount does not exceed the acquisition cost" are the breakdown of "Difference".

(Retirement benefits)

Overview of retirement benefit plans

To provide retirement benefits for employees, JICA has a defined benefit pension plan comprised of a defined benefit corporate pension plan and a lump-sum severance indemnity plan, and a defined contribution plan comprised of a defined contribution pension plan.

On February 16, 2018, JICA transferred the minimum actuarial liability of the substitutional portion of the Employees' Pension Fund to the National Treasury.

2 Defined benefit pension plan

(1) The changes in the retirement benefit obligation are as follows:

•	
	(Unit: Yen)
Retirement benefit obligation at the beginning of the business year	8,217,062,313
Current service cost	284,720,691
Interest cost	37,232,077
Actuarial differences	(110,754,100)
Retirement benefit paid	(270,772,015)
Past service cost	0
Contribution by employees	16,344,459
Decrease associated with the transfer of benefit obligation relating to	
the Employees' Pension Fund	(1,773,842,616)
Retirement benefit obligation at the end of the business year	6,399,990,809

^{*2} The money held in trust is composed of the assets in the trust for which it is difficult to determine the fair value

to determine the fair value.

*3 The fair values of the undisbursed balances of loan commitments are deemed to be extremely difficult to determine. The main reason is the difficulty of reasonably estimating future extensions of loans, because of the extremely diverse range of implementation formats for projects in the developing countries where these loans are provided.

(2) The changes in the plan assets are as follows:

	(UIIIL. TEII)
Plan assets at the beginning of the business year	3,924,343,287
Expected return on plan assets	0
Actuarial differences	86,086,950
Contribution by the company	108,862,364
Retirement benefit paid	(88,061,473)
Contribution by employees	16,344,459
Decrease associated with the transfer of benefit obligation relating to	
the Employees' Pension Fund	(1,850,614,113)
Plan assets at the end of the business year	2,196,961,474

(3) Reconciliation of the retirement benefit obligations and plan assets and provision for retirement benefits and prepaid pension expenses in the balance sheets

	(Unit: Yen)
Funded retirement benefit obligation	2,748,391,249
Plan assets	(2,196,961,474)
Unfunded benefit obligations of funded pension plan	551,429,775
Unfunded benefit obligations of unfunded pension plan	3,651,599,560
Subtotal	4,203,029,335
Unrecognized actuarial differences	0
Unrecognized past service cost	0
Net amount of assets and liabilities in the balance sheets	4,203,029,335
Provision for retirement benefits	4,203,029,335
Prepaid pension expenses	0
Net amount of assets and liabilities in the balance sheets	4,203,029,335

(4) Components of retirement benefit expenses

	(Unit: Yen)
Current service cost	284,720,691
Interest cost	37,232,077
Expected return on plans assets	0
Realized actuarial differences	(196,841,050)
Amortization of past service cost	0
Extraordinary additional retirement payments	0
Total	125,111,718
Loss on transfer of benefit obligation relating to Employees' Pension	
Fund (Note)	76,771,497

(Note) Recorded as a component of extraordinary losses.

(5) Major components of plan assets

Percentages of components to the total are as follows:

Bonds	38%
Stocks	35%
General account of life insurance company	19%
Others	8%
Total	100%

(6) Method of determining the long-term expected rate of return on plan assets

The long-term expected rate of return on plan assets is determined based on components of plan assets, its performance and market condition, etc.

(7) Assumptions used

Principal assumptions used in actuarial calculations at the end of the business year

Discount rate	Defined benefit corporate pension plan	0.23%
	Retirement benefits	0.74%
Long-term expe	cted rate of return on plan assets	0.00%

3 Defined contribution plan

The amount of contribution required to be made to the defined contribution plan is \$12,322,310.

(Lease transactions)

(Unit: Van)

Future minimum lease payments related to operating lease transactions
Future minimum lease payments due within one year of
the balance sheet date \$381,024
Future minimum lease payments corresponding to periods more than
one year from the balance sheet date \$887,896

(Asset retirement obligations)

JICA has a building lease agreement for its head office building, and has an obligation to restore the building to its original state at the termination of the lease period. Therefore, the asset retirement obligations have been recorded. The estimate for the asset retirement obligations assumes a five-year lease period for the projected period of use and a discount rate of 0.529%

The balance of the asset retirement obligations at the end of the current business year was ¥70,374,150.

(Profit and loss under the equity method)

JICA does not maintain any specific affiliated companies and, as such, does not prepare consolidated financial statements. However, profit or loss under the equity method related to affiliated companies is as follows: Investment amount in affiliated companies \$43,545,746,439 Investment amount when applying the equity method \$55,269,119,662

Valuation gain on investments when applying the equity method ¥16,309,398,168

(Significant contractual liabilities)

Contract liabilities JICA is obliged to pay during the next business year and thereafter are ¥22,598,304,400.

(Significant subsequent events)

Not applicable.

^{*} Investments include investment securities, shares of affiliated companies and money held in trust. Dividends received, gain and loss associated with the valuation of investment securities, and gain and loss associated with the valuation of shares of affiliated companies, and gain and loss associated with the investment in money held in trust are recorded as interest items

Balance of Deposits and Securities-Application of Surplus Funds

(Unit: Millions of yen)

	End of FY2016	End of FY2017
Deposits + Securities	210,993	260,639

Yield/Interest rate (Unit: %)

	End of FY2016	End of FY2017
Total average interest rate spread	(1.95)	(2.21)
Yields on interest-earning assets	1.42	1.38
Costs of interest-bearing liabilities	3.37	3.59

Yields on Interest-Earning Assets = Interest / Average Balance of Interest-Earning Assets Costs of Interest-Bearing Liabilities = (Interest Expenses + Bonds and Notes Expenses

+ Other Expenses) / Average Balance of Interest-Bearing Liabilities

Interest-Earning Assets = Interest on Loans + Interest on Bonds

- + Dividends on Investments + Interest Income + Commissions + Gain and Loss Associated with the Valuation of Investment Securities / Shares of Affiliated Companies
- + Gain and Loss Associated with the Investment in Money Held in Trust

Average Balance of Interest-Earning Assets =
Loans + Investments + Bank Deposits (excluding Checking Accounts)
Interest Expenses = Interest on Borrowings + Interest on Bonds and Notes

Interest on Interest Rate Swaps

Bonds and Notes Expenses = Bonds and Notes Issuance Costs

Other Expenses = Operations Consignment Expenses

- + Personnel Expenses
- (including Provisions for Allowance for Retirement Benefits / Bonuses)

+ Operating and Administrative Expenses + Depreciation + Tax Average Balance of Interest-Bearing Liabilities = Borrowings + Bonds and Notes

Breakdown of Allowance for Possible Loan Losses

(Unit: Millions of yen)

	End of FY2016	End of FY2017
Loans	165,531	171,804
Claims probable in bankruptcy, claims probable in rehabilitation, and other	73,484	75,454
Total	239,015	247,259

Note: The allowance for claims on debtors who are legally bankrupt ("Bankrupt borrowers") or substantially bankrupt ("Substantially bankrupt borrowers") is provided based on the outstanding balance of loan claims after the deductions of the amount expected to be collected through the disposal of collateral and execution of guarantees, or the same amount is written off directly. The allowance for claims on debtors who are not legally bankrupt, but are likely to become bankrupt ("Potentially bankrupt borrowers") is provided based on an overall assessment of the solvency of the debtors after the deductions of the amount expected to be collected through the disposal of collateral and the execution of guarantees, or the same amount is written off directly. There were no write-offs from the above-mentioned outstanding balance

The allowance for claims on debtors other than Bankrupt borrowers, Substantially bankrupt borrowers, and Potentially bankrupt borrowers is provided primarily based on the default rate, which is calculated based on the actual defaults during a certain period in the past. The allowance for possible losses on specific overseas loans is provided based on the expected loss amount taking into consideration the political and economic situation of these countries.

All claims are assessed initially by the operational departments (including regional departments) based on internal rules for self-assessment of asset quality. Internal audit department, which is independent from the operational departments, reviews these self-assessments, and an allowance is provided based on the results of the

Information on the Quality of Assets of Japan International Cooperation Agency (JICA) Finance and Investment Account

Although the Banking Act and Act on Emergency Measures for the Revitalization of the Financial Functions of 1998 (the "Financial Revitalization Act") do not apply to JICA, JICA has made self-assessments of the quality of its assets since the fiscal year ended March 31, 2001, in accordance with the standards set forth in the Inspection Manual for Deposit-Taking Institutions of the Financial Services Agency of Japan. This was aimed at increasing disclosure on its asset quality and improving the internal management of credit risks.

One characteristic of JICA's operation is that a considerable portion of its loans is official credit for the governments of developing countries. Thus, when an indebted country is temporarily unable to service debt due to economic difficulties, debt rescheduling will sometimes take place, based on an international agreement among the creditor countries in the Paris Club, in order to ensure sustainable debt service. (Note 1) A debtor country receiving such temporary support for overcoming the liquidity problem will implement economic restructuring programs agreed upon with the IMF to acquire sustainable debt service capacity.

The loans rescheduled under the agreement in the Paris Club have a high probability of repayment, because, unlike loans provided by private financial institutions, their nature as official credit provides an asset-securing mechanism under the above international framework. Nonetheless, to facilitate comparison with private financial institutions, JICA, in principle, discloses the loans rescheduled in the Paris Club and whose debtor countries are categorized as "needs attention" in its self-assessments of asset quality, as loan assets require to be disclosed classifying them either as "Restructured Loans" (under the Banking Act) or "Special Attention Assets" (under the Financial Revitalization Act).

Note 1. An international consensus was reached at the creditor nation conference (Paris Club Meeting) on rescheduling foreign government debt (where the debtor is a country, and debt originates from such government entities as trade insurance or export credit agencies) of debtor nations temporarily unable to make payments due to a deterioration in their balance of payments. As a result, a temporary liquidity support program for debtor nation governments (balance of payments assistance under the framework of international cooperation) will be shortly executed. In conjunction with this temporary liquidity assistance, debtor nations will implement an economic reform program agreed upon with the International Monetary Fund (IMF), making it possible for the country to continue to service its debt obligations.

The total foreign government debt principal applicable to the debt rescheduling agreement at the Paris Club Meeting held in JICA's Finance and Investment Account was ¥798,649 million as of the end of FY2017.

Risk Monitored Loans (Note 2)

The following table shows the classification of Risk Monitored Loans based on the self-assessments of asset quality in accordance with the disclosure standard of Risk Monitored Loans applied to private financial institutions (under the Banking Act). Each category of Risk Monitored Loans is defined as follows:

(1) Loans to Debtor in Legal Bankruptcy (Note 3)

Among loans that are placed in non-accrual status (except the portion deduced as allowance for loan losses), when collection of either principal or interest becomes doubtful for the reason that principal or interest is past due for a considerable period of time or for other reasons, those loans which there is filing of reorganization procedures under the Corporate Reorganization Act or bankruptcy procedures under the Bankruptcy Act or special liquidation procedures under the Companies Act or other relevant laws, or there is suspension of transactions in promissory notes issued by the borrowers in the clearing house.

(2) Past Due Loans (Note 3)

Loans that are placed in non-accrual status except those classified as "Loans to Debtor in Legal Bankruptcy" or those whose interest payments are deferred in order to expedite the borrowers' business restructuring or support their business operations

(3) Loans in Arrears by 3 Months or More

Loans whose principal or interest is past due three months or more from the date following the contractually scheduled payment date and not classified as "Loans to Debtor in Legal Bankruptcy" or "Past Due Loans"

(4) Restructured Loans

Loans whose terms and conditions are modified in favor of the borrowers in order to expedite the borrowers' business restructuring or support their business operations by, among others, reducing the stated interest rate, deferring interest payments or write-downs, and that are not classified as "Loans to Debtor in Legal Bankruptcy," "Past Due Loans" and "Loans in Arrears by 3 Months or More"

(Unit: Millions of yen)

	March 2018 Reporting Period
Loans to Debtor in Legal Bankruptcy	_
Past Due Loans	87,063
Loans in Arrears by 3 Months or More	_
Restructured Loans	654,814
Total (1)	741,877
Balance of Loans Receivable (2)	12,092,066
(1)/(2)	6.14%

Note 2. Deferred principal included in loans as shown in the chart above accounts for ¥22,306 million of the Past Due Loans of ¥87,063 million, and for ¥610,562 million of the Restructured Loans of ¥654,814 million. Other deferred principal, accounting for a total of ¥165,781 million, are of loans that are not categorized as Risk Monitored Loans.

Note 3. Under the framework of the Ordinance for Enforcement of Banking Law 19, 2-1-5, which establishes the disclosure standards of risk-management loans held by private financial institutions, debt owed by foreign debtors must be disclosed as bankrupt debtor debt for all debtors fulfilling each of the following conditions: 1) nonpayment of interest or principal within the most recent previous three-year period from the end of the term; 2) no contract signed regarding the extension of the redemption deadline within the most recent previous three-year period from the end of the term; and 3) no specific plans to sign a contract regarding the extension of the redemption at the end of the term in making disclosures based on the above, JICA, in line with its asset self-assessments and taking into consideration the international framework for cooperation, has classified the aforementioned foreign government debt as debt with bankruptcy concern, while in the disclosure of Risk Monitored Loans, this debt is included as "Past Due Loans."

2 Loan Assets Required to Be Disclosed under the Financial Revitalization Act (Note 4)

The below table shows the classification of loans based on the self-assessments of asset quality in accordance with the disclosure standard of the Financial Revitalization Act.

Each category of Loan Assets to be disclosed under the Financial Revitalization Act is defined as follows.

(1) Bankrupt or De Facto Bankrupt Assets

"Bankrupt or De Facto Bankrupt Assets" are loans and other credits to debtors who have begun proceedings under the Bankruptcy Act, the Corporate Reorganization Act, the Financial Revitalization Act and other similar laws of Japan and have financially failed. In the asset quality self-assessments, these loans are loans to debtors who are legally or substantially bankrupt.

(2) Doubtful Assets

"Doubtful Assets" are loans and other credits to debtors whose financial and operational conditions have deteriorated and who have a possibility that payment of principal and/or interest will not be made on a contractual basis. In the asset quality self-assessments, these loans are loans to the debtors who are likely to become bankrupt.

(3) Special Attention Assets

"Special Attention Assets" are loans to debtors who are categorized as "needs attention borrower" in the asset quality self-assessments, and (i) loans whose principal and/or interest is overdue for three months or more from the date following the scheduled payment date but which are not categorized as "Bankrupt or De Facto Bankrupt Assets" and "Doubtful Assets" ("Past due loans (three months or more)");

(ii) restructured loans on which JICA granted concessions to borrowers in financial difficulties through amending terms and conditions of the loans to assist them to recover and eventually be able to pay to creditors, but which are not categorized as "Bankrupt or De Facto Bankrupt Assets", "Doubtful Assets" or "Overdue loans (three months or more)."

(4) Normally Performing Assets

"Normally Performing Assets" are loans to borrowers with no particular problem in their financial conditions, categorized in the asset quality self-assessments either as "loans to normal borrowers" or "loans to needs attention borrowers (excluding Special Attention Assets)," but which are not categorized as "Bankrupt or De Facto Bankrupt Assets," "Doubtful Assets" and "Special Attention Assets."

Note 4. Deferred principal included in loans as shown in the chart above accounts for ¥22,306 million of the Doubtful Assets of ¥87,063 million, for ¥610,562 million of the Special Attention Assets of 654,814 million, and for ¥165,781 million of the Normally Performing Assets of ¥11,380,784 million.

(Unit: Millions of yen)

		(01)	iic. iviiiiioiis oi ye
	March 2018 Reporting Period		
Loans Payable*1	Bankrupt or De Facto Bankrupt Assets	_	(—)
	Doubtful Assets	87,063	(0.72)
(% of total credit	Special Attention Assets	654,814	(5.40)
transactions)	Sub Total	741,877	(6.12)
	Normally Performing Assets	11,380,784	(93.88)
	Bankrupt or De Facto Bankrupt Assets	_	
	Doubtful Assets	75,454	
	Special Attention Assets	52,968	
Loan-loss Reserve*1	Sub Total	128,422	
	General Loan-loss Reserve for loans not requiring close monitoring	118,319	
	Special Allowance for Foreign Debt	518	
	Total	247,259	
Collateral / Guarantees	Bankrupt or De Facto Bankrupt Assets	_	
	Doubtful Assets	_	
	Special Attention Assets	_	
	Sub Total	_	
	Bankrupt or De Facto Bankrupt Assets	_	(—)
Coverage Amount*2	Doubtful Assets	75,454	(86.67)
(Coverage Ratio, %)	Special Attention Assets	52,968	(8.09)
	Sub Total	128,422	(17.31)

- *1 Based on JICA's self-assessments of assets, the difference between the debt exposure to bankrupt debtors and debtors in bankruptcy and the amount recognized as recoverable by means of collateral or guarantees is considered as the projected amount that cannot be collected on, and so is subtracted directly from the total debt exposure. As such, this figure is not included in the above chart under "Loans Payable" or "Loan-loss Reserve."
- *2 Coverage amount refers to the combined total of the loan-loss reserve set aside for each debt and the value of collateral and guarantees, while the coverage ratio represents the ratio of the coverage amount as a percentage of total loans payable.
