Strengthening Indonesia’s State Asset Management through Technical Cooperation

Today (04/21), the Directorate General of State Asset Management (DGSAM) – Ministry of Finance Republic of Indonesia and Japan International Cooperation Agency (JICA) held a Seminar on “State Asset Management” at the Borobudur Hotel, Jakarta. Main speakers include four (4) experts from Japan’s Ministry of Finance: Mr. Yoshiji HARUYAMA (Director, Fiscal Investment and Loan Management Office), Mr. Makoto FUJISHIMA (Deputy Director, Fiscal Investment and Loan Management Office), Mr. Yuzuru IGUCHI (Deputy Director, National Property Information Office), and Mr. Akio KONISHI (Division Head, Fiscal Investment and Loan Management Office).

These governmental officers are currently engaged in Japan’s state asset management and invited to Indonesia to share their knowledge and experiences in the perspectives of laws and regulations as well as state asset management database. The seminar is divided into three (3) lecture sessions: (i) General information on the state asset management system and its legal framework, (ii) State asset registration system, and (iii) State asset management database system.

The seminar is held as part of a Technical Cooperation Project (TCP) named “Project for Strengthening Institutional Capacity for State Asset Management,” which is being implemented since September 2009 through the cooperation between DGSAM and JICA as a support towards the Government of Indonesia (GOI)’s effort to strengthen its state asset management system.

The Project focuses on the development of the laws and regulations, capacity development of the related government personnel, and development of database through the sharing of Japan’s experience in its own state asset management. JICA has also dispatched one active Japanese government official, Mr. Yoshihide YAMAMOTO, to the Ministry of Finance Republic of Indonesia to support the Project as a Chief Advisor.
