

COVID-19 cases in Egypt

COVID-19 Socio-Economic Response and Recovery Plan for Egypt

The Government of Egypt has issued several public health measures and programs, including on awareness raising, to curb the spread of the virus. Concurrently, the Government has been rolling-out a series of fiscal stimulus policy measures, including the following:

- 1) Tax breaks and delayed payment of taxes targeting several sectors, to mitigate the economic impact of the pandemic.
- 2) Monetary policy response actions were also taken by the Central Bank of Egypt including relaxing the credit repayment deadlines for small and medium enterprises (SMEs) through the local banks.
- 3) Formation of an inter-ministerial committee for the irregular workers affected by the economic repercussions of the pandemic and the establishment of a workers' emergency benefits fund

What is new lifestyle with CORONA?

The main precautionary aspects against CORONA are including the following:

1. Wearing mask
2. Washing hands
3. Measuring the body temperature
4. Keeping social distance to avoid three Cs
 - ❑ **Closed spaces** with poor ventilation
 - ❑ **Crowded places** with many people nearby
 - ❑ **Close-contact setting** such as close-range conversation
