| Outline of Subjects| Course Name: Human Capital Development  
Course Overview: This course outlines the Japanese education experience and the education policies from the Meiji era to the present day. It includes the education reform and explains the development of Japanese education in the context of economic growth and economic development of Japan.  
Lecturer: Professor Keiichi Ogawa  
Course Name: Special Lecture on Development Planning  
Course Overview: This course aims for the students to deepen and acquire practical knowledge and insights on the key issues of Development Planning for international development assistance.  
Lecturer: Lecturer Yasuo Izumi (Japan Development Institute)  
Course Name: Law and Economic Development  
Course Overview: In the process of Japanese modern law development, the original civil and commercial law, which was designed for economic development, has been revised in such a way that it can be coordinated with social policy issues through the accumulation of case law and special law. The subject of this lecture is to study institutional design that can be harmonized with sustainable development orientation for Asian countries while learning from Japan's development experience.  
Lecturer: Professor Yuka Kaneko  
Course Name: Local Government  
Course Overview: We will examine how the Japanese local governments dealt with various problems including pollution and welfare policies from the historical perspective.  
Lecturer: Professor Jun Matsunami  
Course Name: Disaster Risk Management  
Course Overview: In Japan, where natural disasters occur frequently, scientific and
Technical research on disaster prevention and mitigation is being actively conducted, and efforts are being made to utilize the results of the disaster reduction research in Japan and overseas. In the lecture, I will explain the background, research content, and efforts to reduce disasters related to this Japanese experience.

**Lecturer:**Professor Akihiko Hokugo

**Course Name:** Post-Disaster Recovery Planning

**Course Overview:** This course will introduce JICA's reconstruction assistance and disaster prevention activities implemented in foreign countries, and will examine how the knowledge about disaster reduction and reconstruction of Japan is applied overseas.

**Lecturer:** Associate Professor Tamiyo Kondo

**Course Name:** Disaster Management in Japan

**Course Overview:** This course will introduce Japan's disaster prevention policy, which dates back to the Great Kanto Earthquake and continues to the present day. It will also discuss the "Sendai Disaster Reduction Framework" supported by the United Nations, taking into account the development experience of Japan.

**Lecturer:** Associate Professor Shohei Beniya (University of Hyogo)

**Course Name:** Japan's ODA Experiences

**Course Overview:** This course provides an overview of Japan's ODA and its mechanisms from an economic development perspective so as to understand the governmental assessment processes in implementing aid programs.

**Lecturer:** Assistant Professor Hazuki Matsuda
