ABOUT JICA

Japan International Cooperation Agency (JICA) has been supporting Mongolia since the 1990s. JICA offers grant and loan aid, trainings, and technical cooperation in various fields of development including governance, education, transportation, environmental management, and private sector development.

The Project for Strengthening the Capacity for Human Resource Development in the Field of Veterinary and Animal Husbandry (VEP) is one of JICA's technical cooperation projects which started in 2014. The project aims to develop the skills and knowledge of veterinarians engaged in the livestock industry. The project team led by Dr. Umemura, the emeritus professor of Hokkaido University, organizes and carries out the 5-year-project with a close cooperation with Mongolian University of Life Sciences (MMLS).

PROJECT PURPOSE

Strengthening educational and in-service training capacity of School of Veterinary Medicine (SVM) of MULS and Ministry of Food, Agriculture and Light Industry (MOFALI)

The project is expected to produce following outputs:

1. Improved teaching curriculum of SVM
2. More prepared educational system in implementing new teaching curriculum
3. Strengthened teaching capacity of staff at SVM
4. Improved in-service training by Department of Veterinary and Animal Breeding (DVAB) with the collaboration with SVM, State Central Veterinary Laboratory (SCVL), Institute of Veterinary Medicina (IVM), and Ulaanbatar Veterinary Office (UVO)

"The equipment granted by JICA has offered veterinary medical education with more practical exercises!"

PROJECT ACTIVITIES

LEADING THE WORLD WITH TRUST

JICA’s VISION
