

Industry Sector

JICA Approach and Concept Paper

Overview of Sector

Mozambique has plentiful natural resources, extractive resources and agricultural resources with no process

Potential local market, which consumes imported products

High levels of bureaucracy to formalize firms or companies

GOM policies promoting value chain for primary national products, capacitating SME, promotion of design projects for raw materials production and creation of industries and enterprises.

The goal is to discover special products that people take pride in manufacturing, and enable them to autonomously and dynamically produce them as a community

JICA's Approach

Development Target

- One Village One Product (OVOP) approach to MSMEs
KAIZEN and 5S can support on efficient establishment of Incubators through LBE (Laboratory-Based Education)

Since 2013, Continue supporting Mozambican One Village One Product (OVOP) approach to SMEs

- PEDEC-Nacala promotion to connect local industries regionally

Since 2015, Strategic guide for appropriate integrated development and investment in the Nacala Corridor

Target Image :
