FOREWORD

It is our great pleasure to officially release the analysis of the census results of the 2011 Economic Census of Cambodia (EC2011) which was conducted from 1 to 31 March 2011 with 1 March 2011 as the reference date, covering the entire territory of the Kingdom of Cambodia. Historically, it was the first Economic Census in Cambodia as a complete count of all establishments.

Under the legal basis of the Statistics Law, the EC2011 aims at compiling basic statistics on establishments and enterprises in the whole Cambodia's territory. The analysis of the census results provide information on the current situation of establishments in Cambodia and serve for various users such as policy makers, government officials at both national and local levels, international organizations, NGOs, private sectors, researchers, and development partners. The analysis of the census results will contribute to achieving the socio-economic development goals of the Royal Government in supporting evidence-based planning. I am sure that the public will be very much benefitted to use the EC2011 results to the full extent possible.

We express our deep sense of gratitude to the Royal Government of Cambodia led by **Samdech Akka Moha Sena Padei Techo HUN SEN**, Prime Minister of the Kingdom of Cambodia for his constant support to the statistical activities, especially to the EC2011 which enabled very successful completion of the census. We thank Governors of Phnom Penh Capital, provinces, and chiefs of districts as well as Chiefs of commune and village, who provided administrative facilitation for the implementation of the EC2011.

The EC2011 was one of the greatest statistical exercises, and its successful completion was possible with the total help and cooperation received from one and all. The major share of the credit for the success of the EC2011 should go to the entrepreneurs of small, medium and large enterprises who paid busy and valuable time of their daily business to provide information to the EC2011 Forms.

Deep thanks are also given to enumerators, supervisors, and the staff of the NIS and the MOP who were devoted, hard work, and loyal. H.E. San Sy Than, Director General of the NIS ably led the EC2011 operations, being assisted by Mr. Khin Sovorlak, Deputy Director General, personnel associated with this report by Mr. Mich Kanthul, Director Department, Mr. Sam Sok Sotheavuth, Deputy Director, Mr. Teav Rongsa, Deputy Director, Mr. Hisatsugu Furukawa, Senior Consultant of Japan Economic Research Institute Inc. and other NIS staff.

The main industry of an entity is determined based on the kind of its main economic activities basically according to ISIC Rev.4.

The second main industry of an entity is determined based on the kind of its second main economic activities basically according to ISIC Rev.4.

Definition of scale of establishments

The definition of scale is in principle following the Cambodian Government criteria stated below. According to the SME Development Framework prepared by the SME Sub-committee of Cambodian government, for statistical purposes and policy development and implementation, the definition shall be based on full time employees and for other purposes where the number of full time employees is not appropriate total assets excluding land shall be used.

(Source: "Small and Medium Enterprise Development Framework", July 29, 2005, p13 Sentence 58 and 59)

Note: Definition for SMEs in brief

	Statistical Definition:	(cf. Financial Definition for Assets excluding land, in USD)
Micro	Employee number 10 and less	(Less than 50,000)
Small	11 – 50	(50,000 – 250,000)
Medium	51 – 100	(250,000 – 500,000)
Large	Over 100	(Over 500,000)

(Source: ADB and RGC's Sub-committee on SME Secretariat, 2005 and 2007)

The Analysis of the Report 3 and 4 are made in line with the Statistical Definition mentioned above unless otherwise defined although the size of establishments in EC2011 is not the size of Number of Employees but the size of Number of Persons Engaged.

Medium & Small Establishments

Chapter 1 Establishments

1-1 Number of establishments² by scale and section of industrial classification

The size of employees of M&S is rather small: majority is between 11 and 30 (80.7%). 21-30 (17.6%) is ranked second largest category of persons engaged.

Among M&S, Education employs nearly 1/3 (3,400 person) of person engaged and has the largest share (31.5%). Majority of them employs only 11-20 persons (the former 61.1% and the latter 66.9% are 11-20 persons). But Education section also employs largest number of person in all categories of number of persons engaged.

²“Establishments” include entities (single units and head offices) including such organizations as NGOs that supplied financial data to this Census survey, and branches.

(profit ratio)

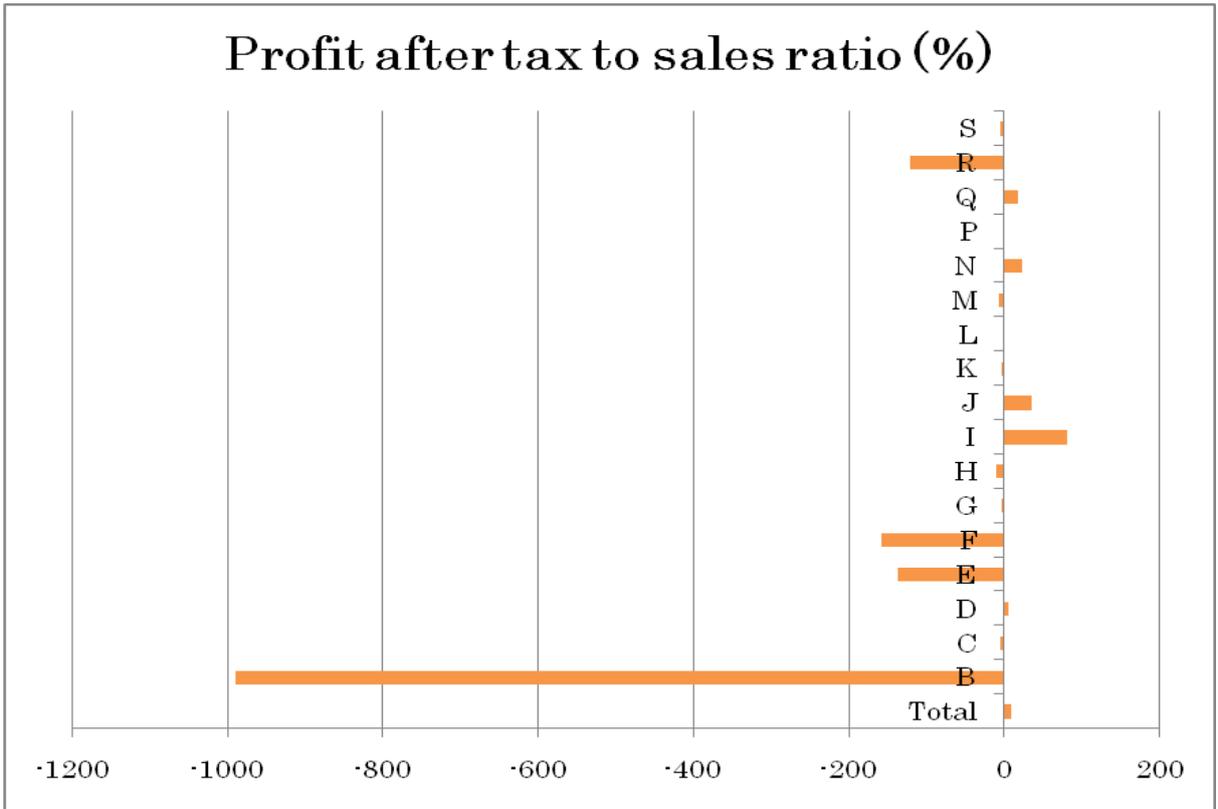

Looking at the profit ratio of enterprises with B/S and I/S, Operating profit to sales ratio is 26.7% in average while average Profit after tax ratio is lowered to 8.8%.

By section of ISIC, Mining and quarrying reported a huge negative ratio. In addition to Mining and quarrying, Construction, Water supply; sewerage, waste management and remediation activities, Arts, entertainment and recreation reported large size of negative ratios , although their Operating profit to sales ratio was positive.

Looking at the ROA and ROE, Human health and social work activities and Accommodation and food service activities reported high ratio.

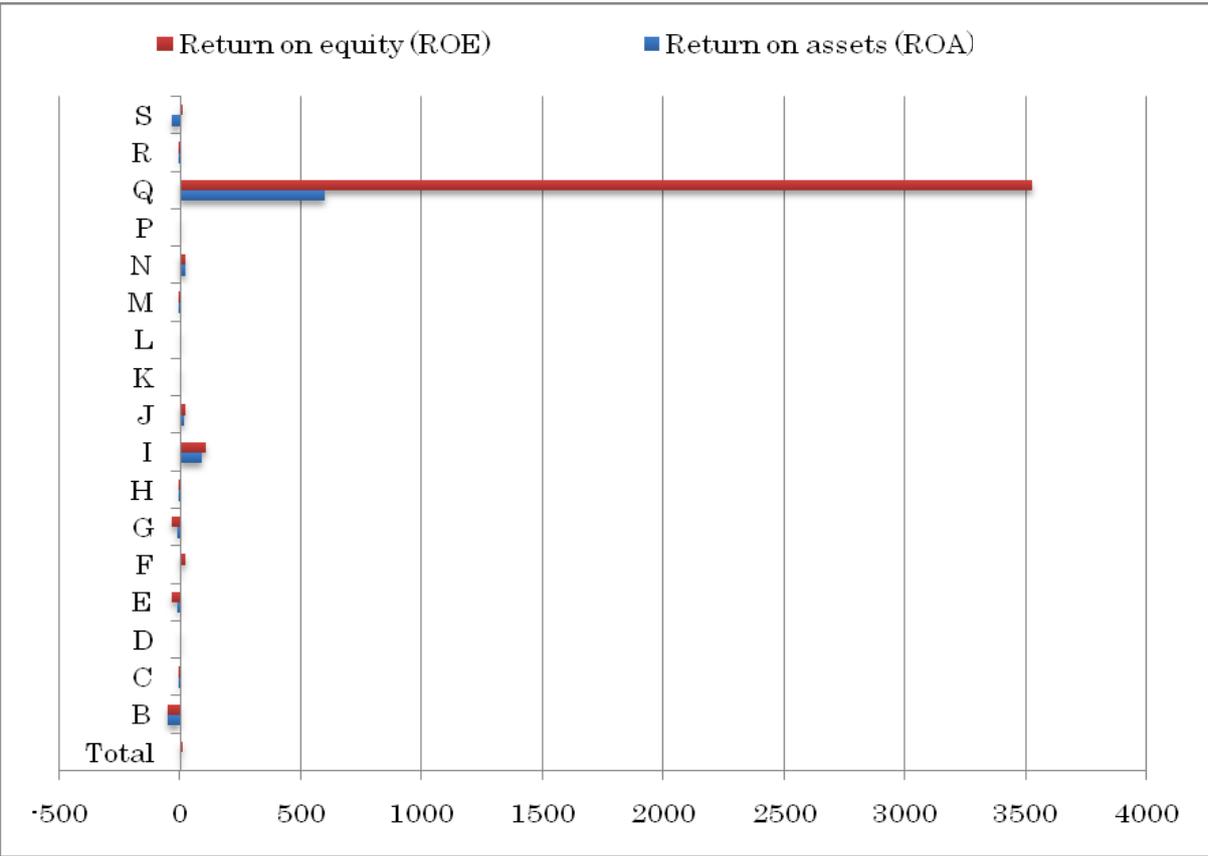

Considering all these profit ratio together, it can be noted that Human health and social work activities, Accommodation and food service activities, Information and communication and Administrative and support services are four profitable sections in Cambodia together with Electricity, gas, steam and air conditioning supply.

5-4 Number of enterprises by salaries and wages per persons engaged

Annual salaries and wages per persons engaged of M&S enterprises is 85,138 USD (cf. Report 3, Table 5.3.7). Average annual salaries and wages per person engaged is 2,420 USD. By section of ISIC, Financial and insurance activities paid highest average annual salaries and wages of 8,396 USD, then Education with 5,685 USD, Professional, scientific and technical activities with 3,844 USD, Construction with 3,546 USD and Real estate activities with 3,529 USD etc.

Comparing the Wages and salaries to sales ratio of enterprises that keep B/S and that do not keep B/S in M&S, M&S as a whole the latter paid slightly more than the former. But by section, in Mining and quarrying, Water supply; sewerage, waste management and remediation activities, Construction, Education and Professional, scientific and technical activities, the former paid more than the latter but such sections as Financial and insurance activities, Administrative and support services, Human health and social work activities, Accommodation and food service activities, and Information and communication, latter paid more than the former.

In such section as Education, Professional, scientific and technical activities and Arts, entertainment and recreation where services are depending more upon personal ability, it is natural that the weight of salaries and wages to total cost become higher than other section.

3-4 Number of persons engaged by year of starting business and section of industry

Number of persons engaged by year of starting business showed a clear increase trend after 2005, during 2008 and 2010 in particular.
