Introduction

Welcome to Live & Learn, where we envision a nation that thrives on sustainability and equity, leaving behind the shadows of poverty. Our mission is clear: to educate, unite communities, and forge supportive alliances in the pursuit of sustainability, steering towards a future where every individual can flourish.

At Live & Learn, we strive to:

- Cultivate ethical and sustainable attitudes, values, and actions at both individual and community levels.
- Foster networks and partnerships among various stakeholders, including schools, youth, governments, NGOs, and more, to collectively address sustainability challenges.
- Share knowledge, skills, and resources to enrich both our physical and human environments.
- Advocate for the integration of fundamental principles such as human rights, environmentalism, humanitarianism, culture, gender equality, and peace in all our endeavors.

Background of establishment

Registered in Fiji under the Charitable Trust Act on 29 September 1999. Local NGO (a member of a regional network established in the Pacific since 1992 (9 country members; Networking Office in Melbourne, Australia).

Vision

A leading organisation in Fiji and the region that engage, educate, enable, and empower vulnerable communities.

Mission

We build on existing knowledge, traditional practice, and structures, empower vulnerable communities through meaningful engagement, participation, education, and partnerships to foster sustainable developments and futures.
