## 2. Introduction of JICA Experts, Volunteers and Office Staff

### [JICA Experts]

#### Mr. TAKASHIMA Hiroshi, Expert

Enhancing Forest Management Capacity for Addressing Climate Change

I commenced my assignment as an expert for forest management at PNG Forest Authority in November 2025. Seventy seven percent of the land in PNG is covered by forests and the country is called “the last paradise” maintaining 5% of biodiversity on earth. However, the area of forests is decreasing recently due to development of palm oil industry etc. and the balance between conservation and utilization of forest resource is an issue. I hope to support to hand over the valuable forests to the next generations working together with PNGFA.

There is a Japanese private company in PNG working in logging industry and logs are also exported to Japan. I also hope to be helpful for both such company and PNGFA through bridging them.

Since this is a rare opportunity for Japanese to visit PNG, I wish to enjoy my stay here and do my best in everything I face.

#### Mr. OTOMO Shiro, Project Manager and Public Finance Management

Project for Improving Resource Related Revenue Management Phase 2

PNG is one of the 55 countries where Extractive Industry Transparency Initiative (EITI) has been practiced since 2013. EITI aims to improve the transparency of revenue streams between the government and companies in extractive industry through checking and publicizing it and promote public debate about better use of the benefit for sustainable development of the country. The situation of each country is validated regularly and the recent score of PNG is 70 out of 100, which requires more improvement. In this project, 3 experts, who have expertise of public finance management, audit, and data management, are working at PNGEITI National Secretariat in the Department of Treasury together with the Auditor General's Office and National Petroleum Authority. We work with these organizations hoping the Government of PNG publicizes the trustful information about resource related revenue in a timely manner and PNG's practice in EITI is highly evaluated in future.

### [JICA Volunteers]

Three new volunteers arrived in August 2025 making the total of 15 in PNG. Having gone through preparatory orientation in Port Moresby and Tok Pisin training in East Highland Province, they were stationed in each assignment place. JICA PNG Office wishes you all the best for your activities!

### [JICA Staff]

#### Mr. Sylvester NAIYON, Assistant Program Officer

I began my career with the JICA PNG Office in September 2023, and this year marks my third year of working alongside an incredible project team across multiple sectors.

Over the past 2.5 years, it has been both rewarding and inspiring, filled with opportunities to learn and grow from diverse projects. One of the most memorable moments of my journey was celebrating JICA's 50th anniversary in 2024, a milestone that reflects the organization's long-standing commitment to the development of this country. I am deeply grateful to JICA for providing job security and prioritizing staff welfare throughout this period.

Working alongside my Japanese colleagues has been an enriching experience. Their professionalism, dedication, strong work ethic, and admirable character continue to inspire me, and I strive to reflect these values in my own work.
