CULLETS

This chart gives representative examples and is not meant to be an exhaustive list. For more details, refer to the NSWMC website for the updated approved list of recyclables.

## RESIDUALS

Recyclables not salable in local junk shops or recycling markets should be classified under "residuals with potential for recycling."

### **RESIDUALS** with POTENTIAL FOR RECYCLING

WACS (Waste Analysis and

**Characterization Study)** 

SOLID WASTE CATEGORIES

The volume of residual waste that

ends up in our landfills can be greatly

reduced by treatment technologies.

**RESIDUALS for DISPOSAL** 

Hazardous wastes are covered under Republic Act 6969 (Toxic Substances and Hazardous and Nuclear Wastes Control Act of 1990) and its related policies, such as Department Administrative Order 2013-22. Industrial, commercial and institutional establishments that generate hazardous waste must be registered with DENR-EMB and obtain the necessary permits.

# SPECIAL WASTE

**HEALTHCARE WASTE** 

from HOSPITALS

### **HAZARDOUS WASTE**

Healthcare waste must be properly disposed of by hospitals, clinics and other health institutions. Guidelines for their proper disposal are covered by the **Healthcare Waste Management Manual** published by the Department of Health.

### **BULKY WASTE**

Bulky wastes require separate hauling arrangements with the Local Government Units (for Households) or Contracted Parties (for Commercial, Industrial, and Institutional Sources.) Proper treatment or disposal of waste must be ensured.

A standardized and mandatory guide for Philippine Local Government Units and Solid Waste Management Practitioners based on the WACS Guidelines approved by the National Solid Waste Management Commission, Office of the President, Republic of the Philippines.
