

BOOK OF OPPORTUNITIES

Joint Venture with Mozambican Companies

Centro de Promoção de Investimentos
(Investment Promotion Centre)

January 2015

1. Agriculture/Agri-business/Forestry

	Project Title (Type of Project)	Location (Province - District)	Type of Cooperation	Investment Value (USD)	Useful Information
1.1.	Farming and Livestock Project (New)	Maputo -Moamba	Financial / Technical	500 000	Objective: Potato production Market: National Supporting infrastructure: 50 ha (10 ha reserved for potato production) *Feasibility study completed
1.2.	Rice Production Project (New)	Inhambane - Morrumbene	Financial / Technical	130 367	Objective: Rice and butter beans production Market: National *Feasibility study completed
1.3.	Bean Commercialization Project (Expansion)	Niassa	Financial / Technical	1 380 000	Objective: Packaging and commercialization of beans purchased in local communities. Market: National and international *Feasibility study completed
1.4.	Project for Processing and Export of Agricultural Commodities (New)	Maputo City	Technical / Equipment	5 000 000	Objective: Production, processing and marketing of vegetable Market: National and international
1.5	Project of Tomato Processing (New)	Maputo - Magude	Financial / Technical	350 000	Objective: Tomato Processing.
1.6.	Livestock Agro-processing Project (New)	Maputo - Magude	Financial / Technical	450 000	Objective: Beef and Goat meat Processing
1.7.	Milling Project (New)	Gaza - Bilene	Financial / Technical	4 545 455	Objective: Bran production
1.8.	Cashew Nut Processing Project (New)	Inhambane - Massinga	Financial / Technical	2 845 454	Objective: Cashew nut processing
1.9.	Cassava Processing Project (New)	Inhambane -Inharrime	Financial / Technical	152 000	Objective: Cassava processing for brewers and bakery industries
1.10.	Pineapple Processing Project (New)	Sofala - Muxungue	Financial / Technical	4 030 090	Objective: Pineapple processing
1.11.	Agro-processing in Greenhouse and Aviaries (New)	Inhambane - Morrumbene	Financial / Technical	1 000 000	Objective: Production of fruits, vegetables and poultry Market: Start with national market Supporting infrastructure: Area of 15 ha. *Feasibility study completed
1.12	Forest Management Project Flamingo Investimentos, Lda (New)	Cabo Delgado - Muidumbe	Financial / Technical	N.A.	Objective: Forest management for exploitation under 25- year concession Support infrastructure: Area of 20 000 ha and forest industry
1.13	Litapata Forest Exploration Project (New)	Cabo Delgado - Muidumbe	Financial	N.A	Objective: Development of activities relating to felling and timber processing Supporting infrastructure: Area of 20 ha
1.14	Tomato Production and Processing Industry	Sofala - Nhamatanda	Financial / Equipement	8 000 000 000	Objective: Tomato production and processing Market: Domestic, regional and international Supporting Infrastructure: Beira Corridor (EN6, Port in 70 km, power, etc.)

2. Construction/Real Estate

	Project Title (Type of Project)	Location (Province - District)	Type of Cooperation	Investment Value (USD)	Useful Information
2.1.	CENONE CONSTRUÇÕES, S.A (Modernization and Expansion)	Maputo City	Financial / Technical	500 000	Objective: Engineering and public works, geotechnical (soil survey and drilling), electrical, telecommunications, ventilation and air conditioning and hydraulic works, and paintings. Market: National
2.2.	Real Estate Project (New)	Maputo - Boane	Financial / Technical	N.A	Objective: Construction of housing Supporting infrastructure: Area of 1 ha
2.3.	Plató Pemba Real Estate Project (New)	Cabo Delgado - Pemba City	Financial / Technical	N.A	Objective: Construction of tourist, commercial, residential and social infra. Supporting infrastructure: Area of 150 ha
2.4.	Housing Construction Project in Marrabo Village (New)	Quelimane -Quelimane City	Financial / Technical	150 000 000	Objective: Construction of housing - T2 (2-bedrooms) (500) and T3 (3-bedroom) (1500), social infrastructure, roads, facilities for water supply, sanitation and power supply, and others.
2.5.	Housing Construction Project in Nicoadala and Zalala (New)	Zambezia - Nicoadala, Zalala	Financial / Technical	50 000 000	Objective: Construction of housing - T2 and T3 (500 units), social infrastructure, roads, facilities for water supply, sanitation, power supply, etc.
2.6.	Integrated Project for construction of residential buildings and social infrastructure (New)	Gaza - Xai-Xai City	Financial / Technical	40 000 000	Objective: Construction of housing - T2 and T3 (300 units) social infrastructure, roads, facilities for water supply, sanitation, power supply, etc.
2.7.	Integrated Project for Construction of residential buildings and social infrastructure (New)	Mampula - Nampula City	Financial / Technical	150 000 000	Objective: Construction of housing - T2 (500 units) and T3 (1500 units), social infrastructure, roads, facilities for water supply, sanitation, power supply, etc.
2.8.	Integrated Project for Construction of residential buildings and social infrastructure (New)	Nampula - Nacala City (Utopia)	Financial / Technical	150 000 000	Objective: Construction of housing - T2 and T3 (2000 units), social infrastructure, roads, facilities for water supply, sanitation, power supply, etc.
2.9.	Integrated Project for Construction of residential buildings and social infrastructure (New)	Tete – Tete City	Financial / Technical	150 000 000	Objective: Construction of housing - T2 (500 units) and T3 (1500 units), social infrastructure, roads, facilities for water supply, sanitation, power supply, etc.
2.10.	Integrated Project for Construction of residential buildings and social infrastructure (New)	Gaza - Macias	Financial / Technical	28 000 000	Objective: Construction of housing - T2 (500 units) and T3 (1500 units), social infrastructure, roads, facilities for water supply, sanitation, power supply, etc.
2.11.	Construction of 2 Warehouses (New)	Cabo Delgado – Metuge, Balama	Financial / Equipment	400 000 (200 000 each)	Objective: Construction of warehouses for 1) gas and oil equipment logistics and 2) mining and agricultural products logistics. Market: Domestic, regional and international Supporting infrastructures: 6.24x10.00 in a 50x50 area

3. Infrastructure/Energy

	Project Title (Type of Project)	Location (Province - District)	Type of Cooperation	Investment Value (USD)	Useful Information
3.1.	Construction of Moatize Dry Port -Tete (New)	Tete - Moatize	Financial / Technical	7 000 000	Objective: Construction of the port infrastructure for the storage, transport and distribution of goods and services within the country and Southern Africa region through the Sena line.

					<p>Market: domestic and international, a region with coal mining industry</p> <p>Supporting infrastructure: the Sena railway line, tarred roads system linking Zimbabwe, Zambia, Malawi and Congo Republic, energy supply from the Cahora Bassa Power Supply Plant (HCB), and water infrastructure</p>
3.2.	Construction of Mutarara Dry Port - Tete (New)	Tete - Mutarara	Financial / Technical	2 000 000	<p>Objective: Construction of the port infrastructure for the storage, transport and distribution of goods and services to Malawi through the Sena line.</p> <p>Market: National and international, near Malawi.</p> <p>Supporting infrastructure: Sena railway line, secondary roads connecting the country and Malawi, and electricity from HCB.</p>
3.3.	Construction of Matutuine Dry Port - Maputo (New)	Maputo - Matutuine	Financial / Technical	500 000 000	<p>Objective: Construction of a multipurpose terminal for general cargo; fuel terminals (for strategic reserves); terminal for petrochemicals products and passenger terminal and Marina.</p> <p>Market: National and international - close to South Africa, Botswana and Zimbabwe Markets</p> <p>Supporting infrastructure: South railway system, consisting of three railway lines connecting the port of Maputo, Swaziland, South Africa and Zimbabwe.</p>
3.4.	Designing and Construction of Moatize Industrial Park -Tete (New)	Tete - Moatize	Financial / Technical	12 500 000	<p>Objective: Delimitation, fencing and establishment of basic infrastructure for small and medium-sized enterprises to set up different types of industries, trade and support services to mining companies located in Tete province.</p> <p>Market: National and international - a region with coal mining industry and with multinationals.</p> <p>Supporting infrastructure: Tete International Airport, train and port system of Beira Corridor</p>
3.5.	Construction of Mocuba Dry Port (New)	Zambézia - Mocuba	Financial / Technical	5 000 000	<p>Objective: Rehabilitation of Mocuba Dry Port</p> <p>Market: National and international - SADC region with high potential for agribusiness near northern capital</p> <p>Supporting infrastructure: Tarred roads connecting all provincial capitals</p>
3.6.	Construction of Pemba Intercontinental Hub (New)	Cabo Delgado -Pemba	Financial / Technical	450 000 000	<p>Objective: Construction of an Intercontinental airport and logistic infrastructure</p> <p>Market: National and international - a region with high tourist potential, flow of tourists and multinational oil companies.</p> <p>Supporting infrastructure: Paved roads integrated to the national road (N1), the Beira corridor,</p>
3.7.	Pavua Dam Project (New)	Sofala - Pungué River	Financial / Technical	600 000 000	<p>Objective: Study and construction of a dam with the following dimensions: height - 84 m; Storage volume - 3,330 M m³; Useful volume - 210 M m³ and Mean Flow m³/ s 85.9. The dam will have the potential to generate electricity of about 438 GWh / year.</p>
3.8.	Corumana Dam Project – Complementary works phase II (Expansion)	Maputo - Moamba	Financial / Technical	25 000 000	<p>Objective: Increase the level the reservoir from 111 to 117 M m³, by placing gates on the flood spillway and construction of a dyke.</p>

3.9.	Sussundenga Dam Project (New)	Manica - Sussundenga	Financial / Technical	350 000 000	Objective: Construction of concrete dam, a dome type with the following dimensions: maximum height - 45 m; Crest length - 99.60m and volume stored in NPA = 33 million m ³ . The project aims to produce electricity for the promotion of industrial development in the region; increase the annual water availability for irrigation of 1500 ha and consumption in the urban center of Sussundenga
3.10.	Chimezi Dam Project (New)	Manica - Chimezi River	Financial / Technical	120 000 000	Objective: Construction of earth dam with side flood spillway and concrete bottom outlet. The infrastructure will have the following dimensions: maximum height - 25 m; storage capacity in NPA = 23 million m ³ ; basin area - 138 km ² and length of the crest - 166 m. This project is intended for water storage for irrigation of areas of Chimezi-Zonué, water supply to the headquarters of Sussundenga district; a potential for power generation and regulation of flood flows.
3.11.	Montepuez Dam Project (New)	Cabo Delgado - Montepuez (Montepuez River)	Financial / Technical	125 000 000	Objective: Construction of earth dam with water intake. The dimensions of the dam will be - a maximum height - 27.3 m; storage capacity NPA = 2,003,220 m ³ and the crest length of 2 000 m. The dam is intended to store water for irrigation, water supply to the headquarters of Montepuez district and power generation.
3.12.	Mandimba Dam Project (New)	Niassa - Mandimba District	Financial / Technical	150 000 000	Objective: Impounding reservoir for irrigation; water supply and power generation
3.13.	Pambarra Irrigation Project (Expansion)	Inhambane - Vilankulos	Financial / Technical	5 000 000	Objective: Expansion of irrigation system to 400ha. Installation of a power line to the pumping equipment, consultation for the detailed design of the project Supporting infrastructure: Existence of a 20 ha of irrigation system operated by private farmers and smallholders *Financial study completed
3.14.	Paunda Irrigation Project (New)	Inhambane - Mabote	Financial / Technical	20 000 000	Objective: Construction of the 1000 ha irrigation system. *Financial study completed
3.15	Mphanda Nkuwa Hydroelectric Plant (New)	Tete - Chiúta	Financial / Technical	2 600 000 000	Objective: Construction of a hydroelectric dam with generating capacity of 2400MW. The project will be divided into two stages, the first stage with generating capacity of 1500MW. The project will be implemented within 61 km from the Cahora Bassa. *The environmental impact assessment completed *Financial Closure Underway
3.16	Moatize Thermal Power Plant (Coal) (New)	Tete - Moatize	Financial / Technical	1 500 000 000	Objective: Construction of a thermal power (coal-fired) plant with generating capacity of 2400MW. *Feasibility study completed.
3.17	Benga Thermal Power Plant (Coal) (New)	Tete - Benga	Financial / Technical	1 300 000 000	Objective: Construction of a thermal power (coal-fired) plant with generating capacity of 2000MW.

					*Feasibility study completed
3.18.	Alto Malema Hydroelectric Plant (New)	Zambézia - Gurúé	Financial / Technical	124 000 000	Objective: The project comprises the construction of a hydroelectric dam with generating capacity of 60MW. *Feasibility study completed
3.19.	Lúrio Hydroelectric Plant (New)	Cabo Delgado	Financial / Technical	400 000 000	Objective: The project comprises the construction of a hydroelectric dam at the mouth of the Lúrio River with the capacity to 120MW. *Feasibility study underway
3.20.	Majawa and Berua Hydroelectric Plant (New)	Zambézia - Milange	Financial / Technical	120 000 000	Objective: The project comprises the construction of a hydroelectric dam with generating capacity of 25 MW (Maawa) and 41 MW (Berua). *Feasibility study underway
3.21.	South - Central (CESUL) Transmission Line Project – Backbone (New)	Tete – Maputo	Financial / Technical	1 870 000 000	Objective: Construction of the backbone of the high voltage power system, 400 kV, with capacity of 2650 MW and a length of 1500 km, which will enable the transmission of electricity from central power plant of Mphanda Nkuwa, Moatize and Benga and HCB North to national Market. *Feasibility and environmental study completed

4. IT

	Project Title (Type of Project)	Location (Province - District)	Type of Cooperation	Investment Value (USD)	Useful Information
4.1.	Information Technology (IT) Project - expansion of data base discover (Expansion)	Maputo City	Technical	2,000,000	Objective: Technological network expansion through installation of a new data base discover. Market: National and International Supporting infrastructure: Company installed a payment system, e-sistaf
4.2.	MozGate Technology Project (Expansion)	Maputo City	Technical / Equipment	50,000	Objective: Expand capacity by increasing equipment and technicians certified in domestic and industrial wiring area (networking cabling, sales of computer equipment and telecommunications, services provision and training). Market: National Supporting infrastructure: Equipment for network qualification and structured

5. Manufacturing

	Project Title (Type of Project)	Location (Province - District)	Type of Cooperation	Investment Value (USD)	Useful Information
5.1.	Meat Processing Project (Expansion/modernization)	Maputo	Financial / Technical	N.A	Objective: Expansion and modernization of its services of sausage, hams, hamburgers and polony. Supporting infrastructure: Building and equipment for production
5.2.	Cement and Steel Factory Project (New)	Maputo - Boane	Financial / Technical	2 070 000	Objective: Construction of a plant for cement production as well as the development of other complementary activities.
5.3.	Cement Factory Project (Expansion/modernization)	Maputo - Matola	Financial / Technical	3 018 233	Objective: Creating an industry in production of cement for construction. Market: National and International

6. Tourism

	Project Title (Type of Project)	Location (Province - District)	Type of Cooperation	Investment Value (USD)	Useful Information
6.1.	The Project for Construction of Tourist Complex – Sea and Sun Lodge (New)	Inhambane - Morumbene	Management / Technical / Equipment / Financial	1 st phase: 2 250 000 2 nd phase: 750 000	Objective: Construction of “SEA & SUN LODGE” with more than 4 stars and other facilities for tourism activities with 132-beds capacity. Market: National and International
6.2.	The Project for Construction of Kafalume Tourist Complex (New)	Maputo - Boane	Financial / Technical	750 000	Objective: Construction of a multinational tourist complex with 240-bed Market: National and International Supporting infrastructure: Area of 3.47 ha, power and drinking water supply *Architectural design/feasibility study completed, construction license obtained
6.3.	The Project for Construction of Tourism Complex (New)	Cabo Delgado - Muidumbe	Financial / Technical	N.A	Objective: Construction of tourist complex and development of other activities Supporting infrastructure: Area of 5 ha
6.4.	The Project for Construction of Tourist Resorts (New)	Cabo Delgado -Palma (Pundanhar)	Financial / Technical	N.A	Objective: Construction of bungalows Supporting infrastructure: Area of 10 ha
6.5.	The Project for Construction of Tourism Complex (New)	Maputo - Ponta Mamole, Matutuine	Financial / Technical	N.A	Objective: Construction of tourist complex Supporting infrastructure: Area of 7 ha
6.6.	Tourism Infrastructure Project (New)	Nampula - Nacala Velha	All types	N.A	Objective: Project compatible for industry, agriculture and tourism Supporting infrastructure: Area of 20 ha
6.7.	Tourism Infrastructure Project (New)	Nampula - Nacala Velha	All types	N.A	Objective: Project compatible for Industry, Agriculture and Tourism Supporting infrastructure: Area of 10 ha
6.8.	Construction of Tourist Complex	Niassa – Lichinga	Financial / Technical	N.A.	Objective: Construction of tourist complex Supporting infrastructure: Area of 500 ha
6.9.	Orla Investment Tourist Complex	Maputo - Matutuine	Financial / Technical	500 000	Objective: Construction/development of tourist complex. Supporting infrastructure: Area of 150 ha

7. Mineral Resources

	Project Title (Type of Project)	Location (Province - District)	Type of Cooperation	Investment Value (USD)	Useful Information
7.1.	The Project for Exploration of Coarse Sand for Construction (New)	Maputo - Boane	Financial / Technical	900 000	Objective: The Project for exploration of coarse sand for construction Market: National Supporting infrastructure: Area of 77 ha with license for mineral exploration *Feasibility study completed
7.2.	Quarry Project (New)	Maputo - Namaacha	Financial / Technical	800 000	Objective: Exploration of basalt rock (stone) and for construction. Market: National Supporting infrastructure: Area of 115 ha *Feasibility Study completed
7.3.	Gold and Gems Exploration Project (New)	Manica - Macossa locality	Financial / Technical	N.A	Objective: Exploration of gold and gems Market: National and International Supporting infrastructure: Area of 406 ha
7.4.	Gold and Gems Exploration Project (New)	Manica - Macossa	Financial / Technical	N.A	Objective: Exploration of gold and gems Market: National and International Supporting infrastructure: Area of 406 ha
7.5.	Gold and Gems Exploration Project (New)	Manica - Macossa	Financial / Technical	N.A	Objective: Exploration of gold and gems Market: National and International Supporting infrastructure: Area of 514 ha
7.6.	Gold and Gems Exploration Project (New)	Manica - Macossa	Financial / Technical	N.A	Objective: Exploration of gold and gems Market: National and International Supporting infrastructure: Area of 406 ha
7.7.	Quarry Project (New)	Cabo Delgado - Palma (Pundanhar)	Financial	N.A	Objective: Extraction and processing of stone for construction Supporting infrastructure: Area of 67 ha
7.8.	Quarry Project (New)	Cabo Delgado - Metuge (Miezi)	Financial / Technical	N.A	Objective: Extraction and processing of stones and sand for civil construction Supporting infrastructure: Area of 25 ha
7.9.	Gold and Iron Exploration Project	Namplua – Monapo, Erati	Financial / Technical	1 500 000	Objective: Extraction of mineral resources Supporting infrastructure: Area of 25 ha
7.10.	Gold and Iron Exploration Project	Manica	Financial / Technical	750 000	Objective: Extraction of mineral resources Supporting infrastructure: Area of 25 ha
7.11	Limestone Exploration Project	Inhambane	Financial / Technical	500 000	Objective: Extraction of limestone Supporting infrastructure: Area of 25 ha

8. SME (Micro-projects)

	Project Title (Type of Project)	Location (Province - District)	Type of Cooperation	Investment Value (USD)	Useful Information
8.1.	Fishery and Aqua-culture Project (New)	Inhambane - Morrumbene	Financial / Technical	50 000	Objective: Fish and Shrimp Production. Market: National and International Supporting infrastructure: 5 tanks (fish ponds) 50x50 in size each, with a capacity of 4.2 ton/year. *Feasibility Study completed.

*Exchange rate applied to the investment value is 1USD = 33 Mt

Rua da Imprensa, 332, R/c, PO Box 4635, Maputo, MOÇAMBIQUE
