

Project of Capacity Development for the Implementation of Agricultural Insurance

Sep. 2020

PROJECT WELCOMES THE NEW EXPERT TEAM

The Sanyu-SOMPO Consortium has joined the Project as technical consultants. While the activity is still limited to an online-communication basis, the workplan was agreed with related organizations, with active participation of local staff. Now the Project have started full-scale activities with new consultant team.

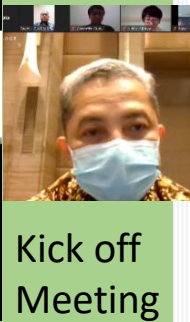

Proyek Pengembangan Kapasitas untuk Pelaksanaan Asuransi Pertanian (CDIAI), JICA funded project

Annual average: 1,445 mm	Annual average: 1,445 mm	Annual average: 1,445 mm

Kick off Meeting

TECHNICAL MEETING WITH PILOT PROVINCES

At the kick-off meeting, it was confirmed that training of trainers will be conducted in East Java and South Sulawesi, aiming at strengthening AUTP (agricultural insurance for paddy) implementation. In addition, it has been decided to conduct feasibility study of AYI (Area Yield Index) insurance, a new attempt of the agricultural insurance at West Java. Online AYI webinar was also held for related parties.

ACTIVITY REPORTING SESSION BY BMKG

Activity report meeting

BMKG (Meteorology, Climate and Geophysical Agency) held an online activity report meeting on 23 Sept. with the support from Japanese experts from the Meteorological Business Support Center. The results of evaluation and analysis on the accuracy of rainfall data and seasonal forecasts in Pilot Provinces and the applicability to agricultural insurance were reported and discussed.
