

Project of Capacity Development for the Implementation of Agricultural Insurance

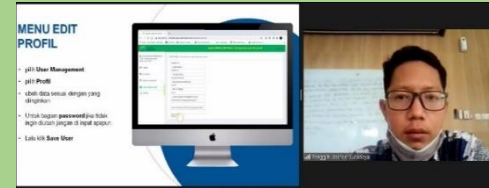

August 2021

2nd TOT for AUIP

2nd Training of trainers (TOT) on AUIP (Indemnity-based Paddy Insurance) for agricultural extension workers was held online on August 3-4 for South Sulawesi and 9-10 for East Java. About 72 people participated and actively discussed during the lectures by the Ministry of Agriculture and JASINDO (State-owned insurance company). On the second day, participants practiced the operation of SIAP and PROTAN, which are online system and application to register insurance subscription and claim.

Lecture by MOA, and JASINDO

Active on-line training

AYII Sales Started

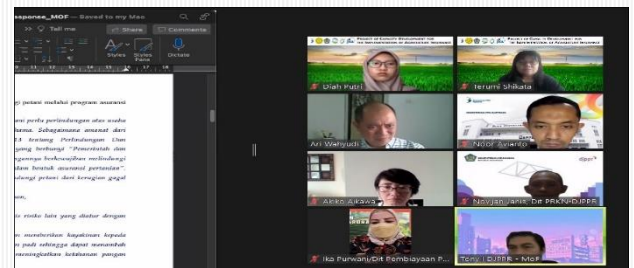

AYII sales have begun in the Pilot District in West Java. Due to the restrictions of social activities in the midst of COVID-19 pandemic, it is not possible to carry out dissemination activities on a group basis and the target number of areas to be insured has been revised accordingly. Amid the limited registration period, AYII sales are promoted through radio, pamphlets, videos, etc., in order to publicize this new product.

AYII Promoting Activities

Core Team Activity

The core team for drafting the presidential decree on agricultural insurance has launched their activity, welcoming a legal advisor as a consultant since the end of June.
