## CHT Monthly Report

**DIRECTION**
- CHT members must make their CHT Monthly Report based on their pregnancy tracking (for the columns 4 to 14) and postpartum and newborn tracking report (for the column 15).
- The accomplishment report must be assessed as part of CHT monthly meeting at BHS, and any problems, concerns or issues related to the activities should be discussed with members during the meeting.
- CHT leader validates the data by comparing it with the tracking reports, and assesses the status of each member and mothers in the tracking report.
- The report should be posted on the wall at BHS to share the performance with members, and a record of the previous months should be properly filed for BHS’s record.

**ANNEX 8  CHT Monthly Report**

Out of 5 women, 1 woman has no MC book since she went to a private clinic; Out of 2 women who delivered this month, 1 woman delivered at home.

CHT failed to visit 1 woman on the 2nd trimester due to her leave to visit her family, but the pregnant woman managed to visit the Health Center in the absence of the CHT.

Add the no. of women tracked last month & new (i.e., this month) to obtain the total.

Ideally, all the numbers in each group of the columns in doted lines (e.g., columns 6, 7, 8) should be the same. If not, find out why & write the reason in the remark column (17).

Calculate as follows: Column 6 – Column 11 = Column 16 (e.g.,) 5 – 2 = 3

Write any findings or concerns in this column (17).
