30th December 2022

The Preparing Bill of Quantity(BoQ) training were implemented in Rwamagana!

Project for Water Management and Capacity Building in Rwanda

March 2019 to February 2025 (6 years)

Collaboration between Rwanda Agriculture and Animal Resources Development Board (RAB) and Japan International Cooperation Agency (JICA)

The WAMCAB conducted a 3-day training on December 28-30, for The Bill of Quantity (BoQ) Preparation training to the project's Task Force members[1] and Field Collaborators[2].

This training contributes to "Output3. Operation and maintenance are properly implemented in model sites," one of the 5 outcomes of the WAMCAB, by enabling participants to understand the contents of the BoQ and to be able to examine and prepare the BoQ by themselves, leading to proper and efficient use of IWUOs funds. We hope that participants who have strengthened their skills through this training will be able to act as instructors in the future and assist IWUOs in preparing appropriate construction implementation plans.

During the 3-day training, the Japanese experts first gave a basic explanation of the BoQ, followed by an exercise in surveying canals in an actual field in the Charuhogo scheme. The training was conducted in two groups led by local project staff, and participants with experience and those who quickly understood the methods were seen teaching each other and cooperating to complete the tasks.

It is planned that in the future, the training participants will share and transfer their skills to IWUOs.

[1] Task Force is a group established to strengthen the vertical coordination between the central level and local government and the horizontal coordination between organizations and departments. It consists of RAB (Rwanda Agriculture and Animal Resources Development Board) station staff and District office staff.

[2] Field Collaborator is expected that will be employed by IWUO after the project is completed. Currently, they are employed on a cost-share basis between the project and the IWUO.

Where is it?

Charuhogo Scheme
at Rwamagana district
