Message from Mr. IWAYA Terumi (Former Chief advisor)

Dear everyone involved in TANCAID activities.

My name is Terumi IWAYA, former TANCAID Chief Advisor. I was transferred to an Irrigation Development office in Japan on 1st April 2013. I would like to express my deepest thanks for all the nice things you did during my stay in Tanzania. Your hospitality and cooperation made my stay both enjoyable and rewarding.

I am now working as a manager of Irrigation Development office located in Okinawa prefecture, driest area in Japan and engaging in works of researching and planning for national irrigation projects. If I have a chance to visit your country again or you come to Japan, I would like to introduce our office activities. It must be applicable to Tanzania.

From Project Manager -4-, TANCAID

The Government is in the final process to formulate Irrigation Commission, this is a good indicator that there is a political will for irrigation development. I'm asking Irrigation Staff at all levels to use this opportunity to put on their landmarks with regards to irrigation development.
