

## SUSFORM-NOW (LDC) Newsm No 9 Villagers teach villagers

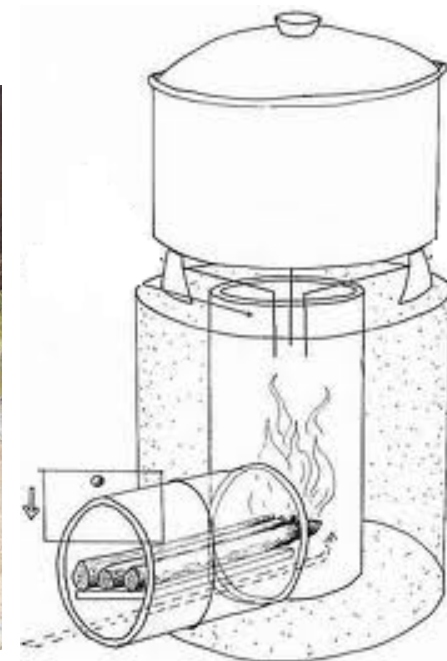

The workshop on rocket stoves was held at Tia Ghenh C in KeoLom Commune, Dien Bien Dong District on January 9, 2012 in order to introduce rocket stoves to villagers and experiment a technology transfer system among villagers.

at a household of Tia Ghenh C

**Technology transfer system among villagers**

Rural master-apprenticeship scheme (technology transfer system among villagers) was experimented at the workshop in order to train villagers to be rural masters of teaching how to produce rocket stoves! After Step 1 (Learning) on January 9, participants are expected to go through Step 2 (Self-producing) on January 16 (Monday) at the second workshop scheduled at Tia Ghenh C.

Step 1  
Learning

Step 2  
Self-producing

Step 3  
Teaching

Many villagers exhibited their great potentials to become masters. Villagers are learning how to produce interior parts of the rocket stoves that will be installed inside the stoves later (above photos in the middle and right).

After Tet, workshops will be moved firstly to Na Phat A and Hoi Mua A, from which participants attended the workshop at Tia Ghenh C, and later to other pilot sites.

January 9, 2012 (Code 2.3.2.1.)
