

## The 7th YAU-JICA TCP Special Lecture

**Taking an opportunity of accepting a short-term expert dispatched by JICA, YAU will hold a Special Lecture in collaboration with YAU-JICA TCP as follows. You are cordially invited to participate in the seminar.**

**Date & Time: 9:00 am, Monday, August 29, 2016**

**Venue: Laboratory of Dept. of Soil & Water Sciences, ELB-1**

**Speaker: Prof. Dr. Koki Toyota**

### **Approach to Sustainable Crop Production**

Koki TOYOTA

Department of Bio-Application and System Engineering,  
Tokyo University of Agriculture and Technology

Prof. K. Toyota, a member of the internal project supporting committee for YAU-JICA TCP, is staying at YAU to give the lectures and trainings to YAU teaching staff and graduate students. Taking this opportunity, he talks about the sustainable use of farm soils, particularly from the perspectives of the management of pest and diseases.
