III. Management of Group Discussion									
17.	All members' participation in discussion	Direct all members to pay attention to other participants' talks during discussion instead of dropping their eyes on Patient's Workbook, and give opportunities to all the participants to speak evenly	3	2	1				
18.	Facilitating interactions between participants	Facilitate interactions between participants during discussion instead of sticking to bilateral communications between the facilitator and participants	3	2	1				
19.	Limited interruption of participants' talk	Allow participants to complete a sentence and avoid talking over them—however, respectfully control a lengthy talk in a manner that does not demotivate the speaker	3	2	1				
20.	Focusing on the discussion topic	Control discussion and do not allow it to deviate too much from the discussion topic  Note: In particular, participants' talk on personal histories of drug use tends to be lengthy. They can share such stories to a certain extent, but the facilitator should adequately redirect the group to the discussion topic.	3	2	1
