

SECTION 2
**Framework of Community-
Managed Maternal and
Newborn Care (CMMNC)**

CMMNC Framework

Key Elements of CMMNC

- **Organized mothers, families, communities and barangays with maternal and newborn health plans and programs; supportive Barangay Captains and Councils and Local Government Officials**

An effective health care delivery system:

- availability and accessibility of skilled, competent and compassionate health providers;
- health facilities licensed by DOH, certified Sentrong Sigla and accredited by PhilHealth with referral systems that provide emergency obstetrical care and intensive newborn care;

An effective health care delivery system:

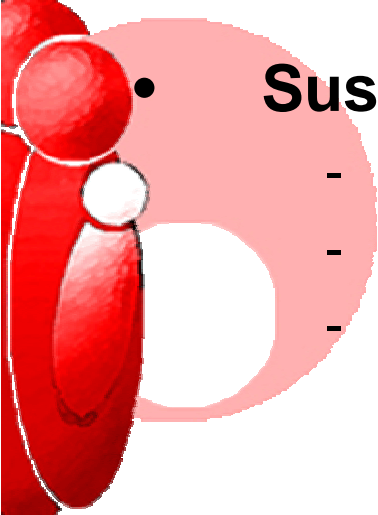

- **provision of:**
 - quality and equitable antenatal care
 - birth planning
 - birthing care
 - postnatal care
 - newborn care
 - newborn screening
 - family planning
 - gender and culturally sensitive health education and counseling on breastfeeding, nutrition, etc.;
- **established or strengthened referral system;**

Sustainable, reliable support systems constitute the ff:

- **Emergency drug and contraceptive self reliance**
- **Provision of safe blood**
- **Building partnerships with private providers**

- 
- **Sustainable financing thru revenue retention**
 - **Philhealth reimbursements**
 - **Collection of user fees from non-poor**
 - **Social marketing arrangements**

CMMNC ensures...

- **Accessibility**
- **Quality**
- **Utilization**
