Type: Technical Cooperation

Acceptance: Japan and/or other countries

Participants: Public servants, private sector
NGO staffs, academia

Site visit to bridge construction site in Inabe city, Japan during "Comprehensive Bridge Engineering" course in Oct. 2015

JICA receives about 60 participants to Japan every year under the training program, Knowledge Co-Creation Program (KCCP), for human resource development and promotion of mutual understanding between South Sudan and Japan. The program covers major development sectors as per the list. More than 500 South Sudanese have been to Japan or other countries under this program since 2005. The ex-participants formed JICA Alumni Association for South Sudan (JAASS) in February 2016 for their strategic collaboration.

ABE Initiative is a strategic five-year plan providing youths in Africa with opportunities for studying at Japanese graduate schools as well as internships at Japanese enterprises. Graduates of the ABE Initiative are expected to contribute to the industrial development of South Sudan and to be a bridge between South Sudanese and Japanese businesses.
