

THE PROJECT FOR INSTITUTIONAL CAPACITY DEVELOPMENT OF SOUTH SUDAN TV AND RADIO

Project Profile

Duration: Dec 2012 – Mar 2018
Budget: JPY 480 Million
(appx. USD 4.8 Million)
Type: Technical Cooperation
Area: Juba
Partners: Ministry of Information, Communication
Technology and Postal Services, South
Sudan Broadcasting Corporation
SDGs: SDG 16 (Peace, justice and strong
institutions)

Sub-control room of SSBC

The Project aims to support human resources development of South Sudan Broadcasting Corporation (SSBC) – both Television and Radio – to deliver accurate and impartial information to the people of South Sudan. Through the Project, JICA will work with SSBC to develop an organizational vision and policy to transform into a public broadcasting corporation and enhance its capacity on program production and reporting. JICA will also support the procurement of necessary broadcasting equipment and assist in enhancing their capacity for operations and maintenance. By supporting the capacity development of public broadcasting, JICA aims to contribute to good governance and nation-building of South Sudan.
