

Project Brief

Issue: Economic Infrastructure (Energy)

Scheme: ODA Loans

Project Title: Electric Power Sector Capacity Development Project (UZB-P13)

Loan Amount: 3,000 million Japanese Yen (approx. 26 million US Dollars as of October, 2017)

Terms and conditions of repayment: Floating rate calculated as 6 month JPY LIBOR minus 1.33% (other than engineering services), 0.01% a year (Engineering Services).

Repayment Period: 40 years, including 10 years of grace period

Tying Status: Untied

Uzbek Counterpart: JSC Uzbekenergo.

Project Goal: to enhance the capacity of Uzbekenergo and its affiliate for planning, operation and maintenance of combined cycle power projects by introducing relevant equipment, materials, and services and thus to contribute to improving stability and efficiency of the electric power supply in Uzbekistan.

Project Scope: The Project consists of two sub-components as follows:

- (1) Engineering Services for “Syrdarya Thermal Power Plant Modernization Project”
- (2) Procurement of Goods and Services for Regular Inspections of Combined Cycle Power Plant No.1 unit at Navoi Thermal Power Station for the period of Dec 2017 – Mar 2018.

Results (Expected for on-going projects): Stable and efficient supply of the electric power in Uzbekistan.

Geographical Location: Navoi and Syrdarya Provinces, Uzbekistan.
