Development Study on Capacity Building for Preparing Feasibility Studies and Implementation Plans for Afforestation Projects in Viet Nam (FICAB)

Background

The Vietnamese and Japanese governments recognize the importance of the capacity building of project planning, especially for those involved in the preparation of F/S and IP at provincial level in order for the 5 Million Hectare Reforestation Program (5MHRP) to be achieved.

Five targeted provinces have for the Study (Thai Nguyen Province, Son La Province, Quang Nam Province, Lam Dong Province, and Long An Province).

Overall Goal/ Objective

To facilitate investments in the forestry sector from the Government of Vietnam as well as international & regional financial institutions, bilateral donor agencies and private investors by strengthening the overall capacities of the governmental institutions for preparing F/S and IP for afforestation projects.

Major Activities

Main activities of the project are:
1. Formulation of training package at core province
2. Preparation of model F/S and I/P
3. Practical On-the-Job-Training (OJT)
4. Seminars
5. Workshops

Counterpart

Department of Forestry, Ministry of Agriculture and Rural Development

Duration

February 2005 ~ February 2008
